Sutlej Textiles and Industries Limited | Annual Report 2010-11

Forward looking statement

In this Annual Report we have disclosed forward-looking information to enable investors to know our product portfolio, business logic and direction and comprehend our prospects. This report and other statements – written and oral – that we periodically make are based on our assumptions. We have tried wherever possible to identify such statements by using words such as ‘anticipate’, ‘believe’, ‘estimate’, ‘expect’, ‘intend’, ‘plan’, ‘project’ and words of similar substance in connection with any discussion of future performance. We cannot guarantee that these forward looking statements will be realised, although we believe that we have been prudent in our assumptions. The achievement of results is subject to risks, uncertainties and even inaccurate assumptions. If known or unknown risks or uncertainties materialise, or if underlying assumptions prove inaccurate, actual results can vary materially from those anticipated, estimated or projected. Readers may bear this in mind. We undertake no obligation to publicly update any forward looking statements, whether as a result of new information, future events or otherwise.

Interaction with the Chairman

“We ended 2010-11 with the highest revenues and profit after tax, which is a reflection of our ability to capitalise effectively on the rebound in the textiles sector.”

Mr. C.S. Nopany, Chairman, Sutlej Textiles and Industries Limited, appraises the performance of the Company in 2010-11 and explains why Sutlej will continue to remain on a sustainable growth trajectory

The long overdue correction in the textile industry had arrived which resulted in our revenues increasing by 37% and record profits for Sutlej in 2010-11 as we are able to maximize the upturn in a cyclical business.

Q. How would you describe the Company's performance in 2010-11?

A. At Sutlej, we have created an excellence-driven culture reflected in disciplined financial and operational processes to help us manage risk through industry cycles. During 2010-11, these disciplines served us well: we achieved record revenues and earnings capitalising on our sector's rebound.

The year 2010-11 was exceptionally good for the textile industry, especially the spinning sector. There was a strong bullish trend in both prices of yarn as well as fibre coupled with unprecedented demand. The long overdue correction in the textile industry had arrived which resulted in our revenues increasing by 37% and record profits for Sutlej in 2010-11 as we are able to maximize the upturn in a cyclical business.

Q. What events resulted in this record performance?

A. By virtue of a rich eight-decade presence, we have acquired a deep understanding of the textiles sector and created a flexible business model that adapts to the changing external business environments. By the virtue of

being integrated with our customers, we converted market signals into business opportunities faster than the rest. Despite sluggish conditions over the past few years we continued to invest in technology upgradation, capacity expansion and product mix enrichment. As a result, we achieved strong volume-driven growth in our yarn and fabric segments. We were successful in achieving a complete pass-through of raw material costs when cotton and other fibre prices shot up in 2010-11. We tightened our working capital management: interest costs as a percentage of sales declined from 4.61 percent in 2009-10 to 3.62 percent in 2010-11 and the working capital cycle was maintained at minimum levels.

Q. What were some of the significant highlights of 2010-11?

A. It is a pleasure for me to note that Rajasthan Textile Mills (Bhawanimandi) received certification of SA 8000, a globally-recognised International workplace quality standard based on the concept of social accountability. It is based on the principles of core International Labour Organisation (ILO) conventions, UN conventions and the

Universal Declaration of Human Rights.

Also, with the opening of the global trade, we have embarked upon steps to increase our exports markets across geographies by increasing activity of merchant export of yarns. The success of this initiative is reflected in the fact that our gross turnover increased from Rs. 1175.01 crore in 2009-10 to Rs. 1623.66 crore in 2010-11, showing an increase of 38.18 percent.

Q. What was the Company's average capacity utilisation in 2010-11?

A. Sutlej reported the highest-ever capacity utilisation at 95 percent in its yarn segment in 2010-11. However weaving and garmenting capacity utilisations were lower on account of a slower-than-anticipated realisations pick-up in fabric and garments. The sluggish realisations growth was on account of the typical lag between yarn and end-product prices. However, for the home textiles segment, our in-house made-up unit was established, resulting in our ability to cater to customers requiring final products adhering to the highest quality standards.

With nearly 12.29 percent of our

Utilisations were higher at

95%

in its yarn segment in 2010-11

253,000 spindles capacity being added in 2009-10, we were largely in consolidation mode during the year under review with a strong focus on maximising productivity (especially in our new capacity), streamlining overheads and marketing products to geographies that fetched us the highest realisations.

Q. What new markets did the Company enter?

A. In the yarns segment, we commenced exports to Panama, Romania and Taiwan in 2010-11. In the home textiles segment, we started exports to Thailand, Mexico, Greece, Malaysia, Singapore and Kuwait. In the garments division, we launched a premium trousers brand called Club Milano. We received an encouraging response from customers in the U.K. from brands like Next, Burton etc. We are now looking to access the markets of Italy, France and Germany as well.

Q. What was the proportion of value-added products in 2010-11? How does the Company plan to increase its proportion of value-added products?

A. At Sutlej, all our business units are equipped with captive research teams that enable the development of value-added products that strengthen our

customer's competitiveness. Strong focus on research and development, coupled with state-of-the-art machinery, allows us to focus on innovative value-added products. Today, we have emerged as one of the largest manufacturers of value-added dyed yarns in India. We are the largest among five privileged Indian licensed producers of the yarn varieties through the consumption of Modal, a special fibre from Lenzing, Austria. We are also prominent manufacturers of cotton and cotton-blended dyed yarns and other specialty products like Melange yarn. With growing end-product requirements, we will continue to focus on the manufacture of specialty yarns that fetch us the highest realisations.

Q. Did the Company face any challenge in raw material procurement?

A. At Sutlej, our manufacturing facilities are strategically located within Indian regions for easy accessibility and uninterrupted as well as the cost-effective supply of raw material resources. We are in close proximity to our markets as well. The Company produces yarns customized to the needs of its clients.

The principal raw materials used by

Sutlej in the manufacture of products comprise cotton and man-made fibres including polyester staple fibre (PSF), viscose staple fibre (VSF), acrylic staple fibre (ASF) and other specialty fibres. While cotton is procured indigenously from Punjab, Haryana, Rajasthan, Gujarat, Madhya Pradesh and Maharashtra, viscose staple fibre is sourced from Grasim Industries, polyester staple fibre mainly from Reliance Industries, and acrylic staple fibre is secured from Indian Acrylics and Pashupati Polytex. Modal/Lyocell staple fibre is imported from Lenzing, Austria. For the fabric division, the main raw materials required for manufacture of blended fabrics are polyester viscose blended yarn, which are largely manufactured in-house. Wool yarns are also outsourced.

Our excellent relationship and most preferred customer status amongst our suppliers have paid us dividends in years of short supply. Prices are normally controlled by the prevailing demand-supply position and the cost of intermediates. Our prudent raw material management practices are reflected in the fact that material cost as a proportion of sales declined from 59.60% in 2008-09 to 57.11% in 2010-11.

The result was that we reported record profitability of

Rs. **114.34** cr

in 2010-11

Q. What are the emerging industry trends in the yarn segment? How well is the Company prepared to meet these challenges?

A. 2010-11 saw extreme volatility in the prices of fibre as well as yarn with yarn prices soaring to new heights.

Unfortunately, fabric manufacturers were unable to absorb the high costs. The Government of India on the other hand banned exports from 1st December 2010 till 31st March 2011 in an effort to control the increase in cotton yarn prices. Again, the year witnessed sharp increase in prices of synthetic fibre and yarn. The year 2011-12 is expected to see a downward correction and we are quite hopeful that Sutlej being a large, integrated and composite company, will be able to withstand these challenges. Sutlej has also been able to widen its market reach by penetrating new markets like Brazil, Egypt, South Africa, Canada and Japan to overcome its dependence on exports to the European Union and the United States.

Q. What developments does the Company foresee in 2011-12? What are the short and long-term goals?

A. Raw material and yarn prices which reached all time high in 2010-11 have witnessed a correction and we hope that they will stabilize at sustainable

levels. India is expected to increase its share in the world trade of textiles. It is interesting to note that in the international markets, China is becoming uncompetitive due to increases in labour and other costs. On the other hand, India's share in the global synthetic, blended and cotton yarn markets is expected to increase.

Q. How does the Company ensure the quality of its work strength? What HR initiatives are undertaken by the Company to further enhance the skills of its people?

A. The textiles sector is one of the more labour intensive sectors in manufacturing. Sutlej recognizes that its human resources are its true assets and represent its future growth and accordingly maximum focus is given to developing the best available talents. Sutlej continuously invests in several training programmes and fosters better relationships and job satisfaction amongst its employees. The total manpower strength of Sutlej as on 31st March 2011 was slightly above 11,500 with excellent relationships with the management. I wish to express my sincere appreciation to the commitment, competence and dedication showed by the employees at all levels.

Our prudent raw material management practices are reflected in the fact that material cost as a proportion of sales declined from 59.60% in 2008-09 to 57.11% in 2010-11.

The total manpower strength of Sutlej as on 31st March 2011 was slightly above 11,500 with excellent relationships with the management.

A) Conservation of Energy

(1) Energy conservation measures taken :

The Company has given due attention towards conservation of energy. It not only reduces the cost of production but also helps in conservation of natural resources which are depleting very fast. The Company is constantly looking for savings of energy and trying to conserve energy continuously by modifications or trying alternate means and continuously upgrading technology and work practices. Steps are being taken to conserve energy on a continuous basis.

Besides continuing the measures taken in earlier years, following steps were taken during the year 2010-11 with a view to reduce the cost of energy and consequently the cost of production.

(i) Bhawanimandi Unit

- a) Re-engineering of compressed air distribution network resulting in annual saving of Rs. 65.56 lakhs.
- b) Modification in waste recovery system resulting in annual saving of Rs. 5.48 lakhs

(ii) Kathua Unit

- a) Replacement of 38 Nos. old Supply Air Fan and Return Air Fan by Energy efficient FRP Fans resulting in annual saving of Rs. 12.30 lakhs.
- b) Replacement of 2 Nos. old small capacity and low efficiency Air Compressors with high efficiency Air Compressor resulting in annual saving of Rs. 11 lakhs.

- c) Installation of 12 Nos. Invertors for Dyeing Machines resulting in annual saving Rs. 13 lakhs.
- d) Replacement of 19 old Pumps in Humidification Plants with new Pumps of latest technology resulting in annual saving of Rs. 8.20 lakhs.
- e) Installation of Inverters on 54 Ring Frame Pneumafilis resulting in annual saving of Rs. 7 lakhs.
- f) Energy saving by improving power factor by installation of power capacitors, resulting in annual saving of Rs. 9.90 lakhs.
- g) Use of Local coal in place of Pet Coke in Boiler and improvement in steam distribution net work resulting in annual saving of Rs. 112 lakhs.

(iii) Bhilad Unit

- a) Air pre heater of boiler was replaced and steps taken to increase feed water temperature resulting in annual saving of fuel consumption by 680 Tonnes.
- b) Up gradation of Humidification System resulting in annual saving of Rs. 5.04 lakhs.
- c) Recycling of cooling water of Singeing machine resulting in water saving by 21600 KL/Annum.
- d) Optimization of operation of water supply pumps resulting in annual saving of Rs. 4.03 lakhs, besides reduction in water consumption by 36000 KL/Annum.
- e) VFD installed on compressor resulting in annual saving of Rs. 3.64 lakhs.
- f) Installed VFD on ID Fan of Boiler resulting in annual saving of Rs. 1.61 lakhs.

2) Additional Investment & Proposals, if any being implemented for reduction of consumption of energy:

Company has following proposals to save energy during the year 2011-12:

(i) Rajasthan Textile Mills

- a) Replacement of 100 old Motors with energy efficient motors at a capital cost of Rs. 25 lakhs which is expected to result in annual saving of Rs. 12.22 lakhs.
- b) Replacement of 60 old supply air and return air fans with new FRP Fans at a capital cost of Rs. 30 lakhs resulting in expected saving of Rs. 13.92 lakhs.
- c) Replacement of 30 old Pumps with energy efficient pumps at a capital cost of Rs. 15 lakhs expected to result in annual saving of Rs. 13.80 lakhs.

(ii) Chenab Textile Mills

- a) To replace 2 Nos. old small capacity and low efficiency Air Compressors with high efficiency Air Compressor which will save about 470000 units i.e. Rs. 12 lakhs per annum.
- b) To replace 43 Nos. Invertors on Ring Frame Pneumafan Units

which will save about 220000 units i.e Rs. 5.60 lakhs per annum.

- c) To replace 164 nos. old Supply Air Fan and Return Air Fan by Energy efficient FRP Fans which is expected to result in saving of 332000 units i.e. Rs. 8.50 lakhs per annum.
- d) To Install 20 Nos. Invertors on Dyeing Machines and, Hydro extractors, which will save 247000 units i.e. Rs. 6.30 lakhs per annum.
- e) Pump modification in Humidification which will save about 174000 units i.e.Rs.4.45 lakhs per annum.

(iii) Damanganga Units

- a) Installation of high bay lights 12 no to improve light & conserve energy.
- b) Installation of transparent sheets to reduce electricity during day time.

3) Impact of the measures at (1) & (2) for reduction of energy consumption and consequent impact on the cost of the production of goods.

The estimated saving is mentioned against each item in (1) & (2) above.

B) Technology Absorption

1) Research & Development

a) Specified areas in which Research and Development carried out by the Company and future plan of action:

The Company undertakes various research and development activity on a continuous basis for development of new products, reduction in production cost and improvement in quality and productivity. To carry out these activities, the Company has development and design centers and labs across its units, having well equipped, most modern and state of the art testing and development equipments and managed by committed team of highly qualified and experienced professionals. The Company has latest technological equipments like Evenness Testers, HVI Spectrum, Tenso Jet-4, AFISPRO LMNT, Yarn Classimate, Online monitoring system, Lab Expert system all from Uster, Auto dispenser, Beaker Dyeing Machine yarn and fibre sample dyeing machines, computerized color matching systems with sophisticated light boxes, simple end warping machine, design computers with latest software etc.

b) Benefits derived as a result of above Research and Development

Wider product mix having value added products at less cost with better quality helped us in improving our volumes and per unit realization.

c) Future Plan of Action

1. Company plans to replace old Evenness Tester with latest model Evenness Tester from Uster, one each at its Kathua & Bhawanimandi Units at a total cost of Rs. 150 lakhs.
2. The Company plans to add testing and shade matching equipments at Kathua Unit at a Capital Cost of Rs. 65 lakhs.
3. The Company plans to add Classifault-II operating system at Kathua Unit at a Capital cost of Rs. 16 lakhs.
4. It is also proposed to install two Sample Looms for development of new samples in Damanganga Fabrics at a capital cost of Rs. 30 lakhs.

d) Expenditure incurred on Research and development

| (Rs. in lakhs) | |
|---|--------|
| i) Capital : | 64.23 |
| ii) Recurring : | 157.31 |
| iii) Total | 221.54 |
| iv) Total R&D Expenditure as a Percentage of total turnover | 0.14% |

2) Technology Absorption, Adaptation and Innovation

a) Efforts in brief, made towards technology absorption, adaptation and innovation

All units of the Company have most modern and state of the art plant and machinery. Almost all machines and equipments are not more than 10 years old. Company has been continuously resorting to Technology absorption, adaptation and innovation.

Following state of the art machines and equipments were installed and modification/ additions were made in existing machines during the year. Company also took various measures for Technology Absorption, Adaptation and Innovation.

Bhawanimandi Unit

1. Installed four "Autoconers of latest technology to replace old outdated Autoconers.
2. Installed three LF 1660 V speed Frame to replace outdated speed frames.
3. Installed one "D-221 twin delivery Reiter Drawframe with Autoleveller for improving productivity and quality of product.
4. Installed one "Pinter Slub Equipment" on Ring frame for producing value added fancy yarn.
5. Installed One cone to cone rewinding machine for consistency in quality of rewinding.
6. Installed two LD-2 Draw Frame to replace outdated draw frames.
7. Various other additions and alterations were made in various machines for improvement in productivity and quality.

Kathua Unit

1. Installed four Auto corners of latest technology.
2. 6 Nos. LC-300A V3 Cards were installed to increase the productivity.
3. Two no. LFS-1660 V Simplex Frame installed to replace outdated simplex frames.
4. One no. Heavy cone winding machine with 64 drums installed to increase the productivity and making heavy packages.

5. One no. RSB-851 Draw Frame with autoleveller for increasing productivity.
6. Replaced Peyer 551 gauges with Uster Quantum Clearers in 2 Auto coners for improvement in quality.
7. 328 Nos. EYC Gauges installed on manual cone winding machines to improve yarn quality.
8. Various other additions and alterations were made in various machines to improve productivity and quality.

Bhilad Units

- 1) Installed new Drying Range to improve drying capacity with energy efficient & latest technology.
- 2) Old decatizing machine replaced by new machine with latest technology.
- 3) Installed new shiner to improve productivity.
- 4) Installed two Fully automatic long tube jet dyeing machines.
- 5) 2 no rolling cum inspection machines with auto stop & weighing attachments were installed in export folding.
- 6) 4 no rolling cum inspection machines were upgraded with auto stop & weighing attachments resulting in reduction in man power & increased output.
- 7) One no new rolling machine installed in Home textile unit.

8) Various other additions and alterations were made in various machines for improvement in productivity and quality.

b) Benefit derived as a result of the above efforts.

Above efforts have resulted in significant improvement in quality and productivity, besides reduction in production cost.

c) In case of recently imported technology, the requisite information in brief :

The Company has not imported any technology

C) Foreign Exchange Earnings and Outgo

a) Activities relating to Exports, initiatives taken to increase exports, development of new export markets for products and services and export plans:

The Company has taken effective steps for exports. During the year, the Company achieved good export performance. Company is conscious of the challenges posed by the international market and will continue to take steps towards developing exports and concentrate on products with the widest acceptability in the export market.

b) Total Foreign Exchange earned and used

(Rs. in lakhs)

| | |
|----------------------------------|----------|
| i) Total foreign exchange earned | 51301.32 |
| ii) Total foreign exchange used | 3787.69 |

Global Economic Scenario

The global economy is on the path to growth supported by recovery in the international and domestic financial flows and higher commodity prices. The spare capacity in developing countries during the crisis has been reabsorbed triggering the economic growth.

The real global GDP growth rate in 2010 was 3.9%. Restructuring and right-sizing in the banking and construction sectors, combined with necessary fiscal and household consolidation, will continue to drag the economic growth in many high income economies and developing Europe and Central Asian countries. Thus, the GDP growth in 2011 is expected to be 3.3%. Whereas in 2012 the global economy would grow by 3.6% as the drag on restructuring activities in the high income countries eases out.

Most of the growth has been on account of strong growth of domestic demand in the developing nations accounting for about 46% of the global growth in 2010. (Source: World Bank)

Indian economic scenario

The Indian economy grew by 8.6% in 2010-11 as against a growth of 7.4% during 2009-10. It is further estimated that its growth would bounce back to 9% during 2011-12. In 2010-11 the manufacturing sector grew by 8.8% with merchandise exports reaching USD 245 bn and imports being USD 362.3 bn. The gross fiscal deficit that stood at 6.3% in 2009-10 reduced to around 5.2% in 2010-11 and it is further estimated to reduce to 4.8% in 2011-12.

The investment rate in the country is expected to be 37% in 2010-11 and 37.5% in 2011-12. Whereas the net domestic savings rate is likely to be around 34% in 2010-11 and 34.7% in 2011-12. (Source: PMEAC)

Global textile industry

Overview

The global textiles and apparels trade increased from USD 510 bn in 2009 to USD 612 bn in 2010. There was some correction in this trade in 2008-09 due to the global economic crisis. However the industry has recovered and is expected to grow with US, Europe and Japan being the biggest consumers of apparel. It is estimated that EU's share is expected to come down to about 10% in next 8-10 years from present share of 30%. On account of lower material and labour costs in countries such as India, China and other Asian countries. (Source: Technopak Analysis)

The replacement of the MFA (Multi-Fibre Agreement) with ATC (Agreement on Textile and Clothing) in 1995 led to the elimination of quotas over four-step transition phase in a period of 10 years, post which the global production base shifted to developing countries and the global trade increased at CAGR of

4.3% from 1995-2004. During this period the global trade increased from USD 310 bn to USD 450 bn and is expected to reach USD 805 bn by 2015. Before 1990s the textile production was primarily from the developed countries likes US, Europe and Japan. But, since then the focus has shifted to Asian countries on account of economies of scale. (Source: Techno Research)

China accounts for about 30-35% share of the Asia's textile market and about 25% market share of the global market compared to India's very low share of around 4.5% share. The recent currency appreciation in Chinese currency has created huge opportunity for Indian textile industry. (Source: The Hindu)

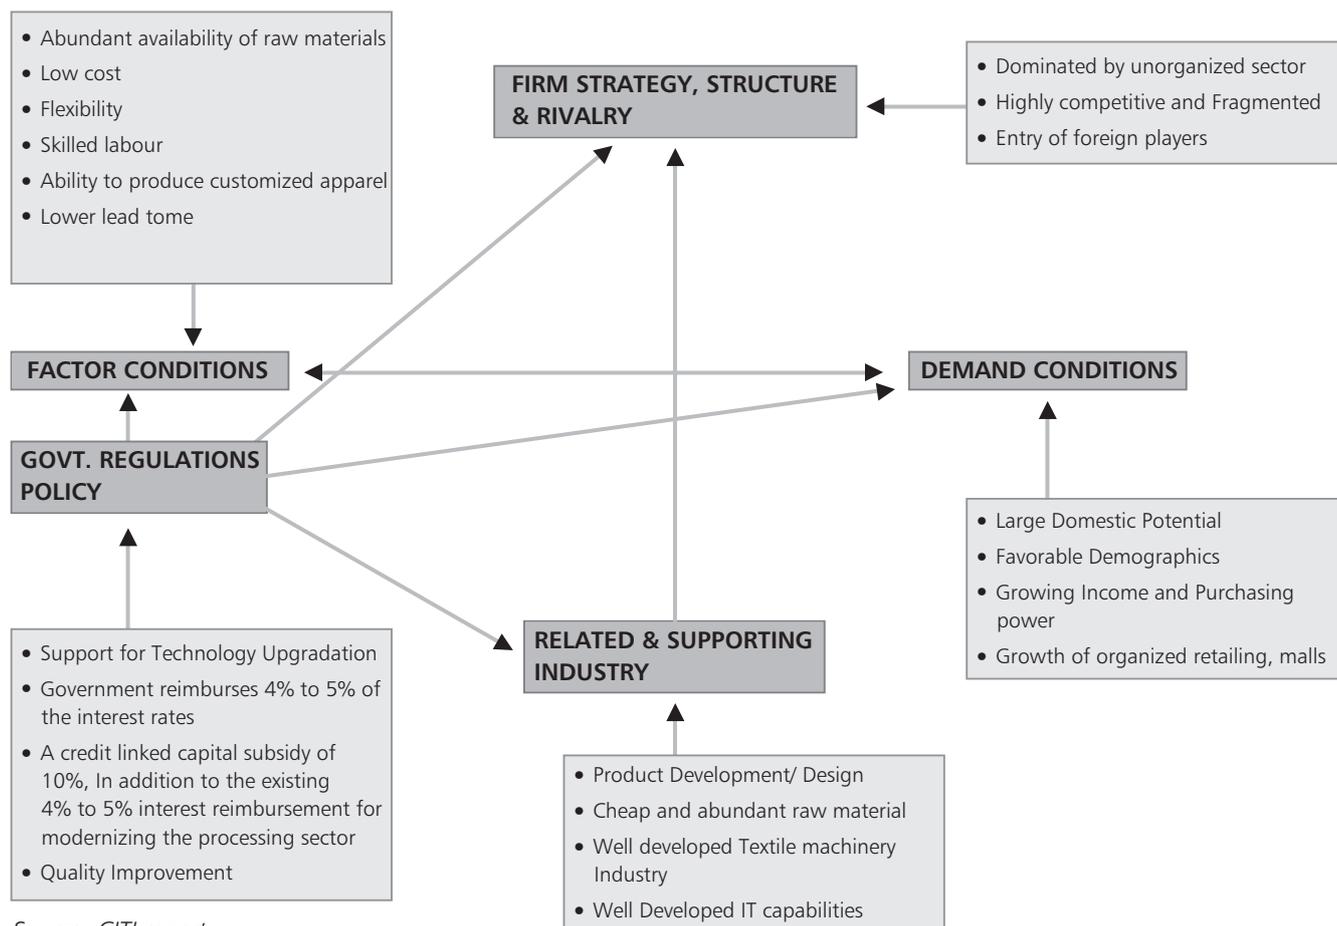

Indian textile industry

Overview

The Indian textile and apparel industry is estimated to be worth USD 70 bn in 2010 with almost 65% of the total textile and apparel production being consumed domestically. It accounts for about 14% of India's total industrial production and contributes to nearly 10% of total exports. It provides direct employment to about 35 million people and another 56 million are engaged in allied activities. It accounts for nearly 4% of India's GDP. The Indian textile industry is expected to expand from USD 70 bn to USD 200 bn by 2020.

The industry holds a significant position in India by catering to the most basic its needs – clothing. The Indian textiles industry is integrated in terms of being extensively engaged in the procurement of raw materials right up to the final production of the actual textile product. The sector targets USD 6 billion foreign direct investment (FDI) by 2015 to be invested in greenfield units in textiles machinery, fabric and garment manufacturing, as well as technical textiles. Textiles and Clothing (T&C) sector IIP data

| Description | % growth in 2010-11 (Apr-Feb) |
|--|----------------------------------|
| Cotton Textiles | 10.3 |
| Wool, Silk and man-made fibre textiles | 0.5 |
| Jute and other vegetable fibre textiles (except cotton) | 35.8 |
| Textile Products (including Wearing Apparel) | 4.9 |

The IIP covers four textile groups –

- Cotton textiles
- Wool, silk and man-made fibre textiles
- Jute and other vegetable fibre textiles (except cotton)
- Textile products (including wearing apparel).

Cotton textiles production grew by 10.3% during April-February 2010-11 as compared to 5.2% during April-February 2009-10. Jute textiles productions have also recovered and grew by 35.8% during April-February 2010-11 as compared to a decline of 23.3% during April-February 2009-10. Textile products grew by 4.9% during April-February 2010-11 as compared to 9.4% during the corresponding months of the previous year. In the wool, silk, and man-made fibres segment of textiles growth has, however, dipped to mere 0.5% during April-February 2010-11 as compared to 9.9% during April-February 2009-10.

Overall, the production of textile fabrics has increased by 1.9% during April-October 2010-11. This is a moderate performance when compared with the robust increase of 8.8% during 2009-10. The decline in textile fabrics/cloth during the current financial year has been on account of comparatively lower growth rates in the production of mill, power loom and hosiery segments.

Policy developments and programmes

There are major policy initiatives taken by the Ministry, comprising the following:

Technology Upgradation Fund Scheme and Scheme for Integrated Textile Parks:

The two flagship schemes of the Ministry of Textiles, namely the TUFs and SITP, have been approved for continuation in the Eleventh Five Year Plan. TUFs, which was commissioned on April 1, 1999 with a view to facilitating the modernization and

upgradation of the textile industry by providing credit at reduced rates to entrepreneurs both in the organized and the unorganized sectors, has been fine tuned to induce rapid investments in the targeted segments of the textile industry. Under the scheme, an amount of Rs. 85,091 crore was sanctioned against a project cost of Rs. 207,747 crore of which loans worth Rs. 74,627 crore were disbursed to 28,180 applicants up to 30th June, 2010 (P).

Under the SITP, 40 integrated textiles parks of international standards, covering the weaving, knitting, processing, and garmenting sectors with project proposals worth Rs. 4133.09 crore (of which assistance from the Government is Rs. 1419.69 crore) have been sanctioned. So far, eight textile parks have been inaugurated. When fully functional the Parks would have an investment of Rs. 19,500 crore. (Ministry of Textiles)

National Fibre Policy:

The Ministry of Textiles formulated a draft National Fibre Policy incorporating inputs from all the major stakeholders. The Policy has been designed with a decadal perspective (2010-20) and seeks to place India firmly on the world fibre map by strengthening the existing policy framework and providing institutional and technological support for rapid fibre growth in the country in the coming decade.

Integrated Skill Development Scheme:

A new scheme, namely the Integrated Skill Development Scheme for the textiles and apparel sector including jute & handicrafts, was launched on 5th August, 2010 with the objective of capacity building of institutions providing skill development and training for workers in the textiles sector. The Scheme envisages an investment of Rs. 272 crore, of which the Government contribution would be Rs. 229 crore during 2010-11 and 2011-12 with a target of 2.56 lakhs persons to be trained. Under this scheme, the Government has envisaged to invest Rs. 2,360 crore over the next five years. (Ministry of Textiles)

SWOT analysis of the textile industry

Strengths

- Indian textile industry is an independent and self-reliant industry
- Abundant raw material availability helps industry to control

costs and reduces the lead-time across the operation. It accounts for about 22% of the global cotton production

- Availability of large varieties of cotton fibre and has a fast growing synthetic fibre industry
- India has a huge growing domestic market and new products are gaining acceptance
- Indian textile industry has a presence throughout the value chain
- India exports 25% of its cotton yarn production
- Industry has manufacturing flexibility that helps to increase the productivity
- More and more buyers have come to trust India as a competent manufacturing country
- India's textile industry is seeing an increase in collaboration between national and international companies

Weakness

- The Indian textiles industry is highly fragmented industry with a huge informal sector
- Lower modernisation focus amongst the small scale players
- Use of outdated manufacturing technology from the low end suppliers leads to lower productivity
- Infrastructural bottlenecks leading to a loss in transportation and transaction time
- Industry is highly dependent on cotton and cotton prices that have risen significantly
- Old and inflexible labour laws
- High incidence of power tariffs, indirect taxes and interest rates
- Small share of organised retail; most Indian retail stores are small (200-300 sq. ft)
- Lack of economies-of-scale and technological development affect the productivity and other activities in the value chain

Opportunities

- Robust retail boom in domestic market owing to favourable consumer demographics and increasing consumption coupled with rising disposable incomes
- Growth rate of the domestic textile industry is a significant 6-8% per annum
- Elimination of quota restriction leads to greater market

developments

- Large, potential domestic and international market still waiting to be tapped
- Availability of greater investment and FDI opportunities
- Emerging retail industry and malls provide significant opportunities for the apparel, handicraft and other segments of the industry as the market is gradually shifting towards branded readymade garments
- Increased per capita income, disposable income and purchasing power of the Indian customer provides huge growth opportunities
- Experts believe that the golden era of Chinese textiles and apparel exports is over and the production base of global textiles is gradually shifting from China away to India and other low-cost destinations
- India's share of the global textile industry is expected to grow from 4.5% in 2010 to 8% by 2020

Threats

- Competition from other countries, especially China, Bangladesh, Cambodia, Indonesia and Vietnam, among others
- There has been an increase in seasons per year which has resulted in shortening of the fashion cycle
- Continuous quality improvement is the need of the hour as there are different demand patterns all over the world
- Volatile raw material prices
- Formation of trading blocks like NAFTA and SAPTA, among others, has resulted in a change in the world trade scenario.
- Existence of bilateral agreements would result in significant disadvantage for Indian exports
- India will have to open its protected domestic market for foreign players thus domestic market will suffer
- The Rupee is becoming stronger compared with the USD over the past 2 years; further strengthening of the Rupee could hamper export revenues

SWOT analysis of Sutlej Textiles and Industries Ltd.

Strengths

- Sutlej has a huge product basket with a presence in the entire textile value chain right from the manufacture of yarns, fabrics,

garments and home textiles

- Large production capacity of yarn, enabling capability to manufacture and deliver all varieties of yarn at any given time
- Modern technology and assets reflected in the fact that most of the plant and machinery is under ten years old
- With years of experience in the yarn manufacturing the Company has developed the skills to develop customised yarns as per customer requirements
- It has the ability to produce diverse varieties of yarns, fabrics and textiles with various types of materials, finishes and quality
- A strong R&D team enables new product development as per the on going trend and customer requirement
- Ability to produce value-added and specialty yarns has enabled it to attract new clients and increase presence in the domestic as well as international markets
- A good reputation in domestic as well as the international markets strengthen customer loyalty

Weaknesses

- Lack of branding and smaller capacities in the fabrics, home textiles and garment segments has resulted in low market penetration
- Inability to increase the in-house use of yarns to achieve higher margins on account of smaller weaving capacity

Opportunities

- TUF scheme enables the Company to undertake expansion activities and increase presence in the domestic and international markets
- Increasing capacities would strengthen economies-of-scale and enhance product mix
- Tie-ups with foreign brands would open up a huge market for garments and home textiles segment
- Catering to the demand of the changing lifestyle and fashion-conscious buyer and supplying to reputed retail chain stores

Threats

- The textile industry is a highly fragmented with a large presence of the unorganised sector resulting in intense competition.

- High risk of losses due to foreign exchange fluctuations
- Anti-dumping duties in many countries increase the cost of products in those markets

Outlook

Global

According to the Clothing Industry Training Authority (CITA) resources would continue to be the keyword for 2011 in the textile and clothing industry. Resource implies the hefty challenges with raw materials and manpower. Since 2010, the prices of raw materials, especially cotton, have been surging to an uncontrollable level. The uncertainty of the raw material issue will linger to 2011 until we have come up with ways to sort it out. Shortage of labor will also be a challenge for 2011 for some Asian countries.

In 2011, emerging Asian countries, namely India, Bangladesh, Vietnam, Cambodia, and Pakistan are believed to steal the spotlight of the global textile industry. According to CITA, the emerging Asian countries will be playing more significant part in the industry in 2011. Their price-competitiveness explains it all. Their governments have given their textile industries enormous support. The historically strong countries like India and Pakistan also grow natural fibers in quantity that can be compared with China (for example cotton).

The global textiles fibre and spun yarn market is expected to reach 93 million tonnes and 47.3 million tonnes respectively by 2015 on account of increasing global textile trade following the expiry of restrictive agreements, continuing shift in production to low cost countries, restoration of consumer confidence, recovery in demand for textiles, and rising market potential in developing regions. (Source: Global Industry Analyst)

The global per capita fibre consumption is expected to grow steadily in the long-term up to 11-12 kg per capita by 2025, which means additional fibre consumption of about 20 million tonnes would be required. It is expected that the global textiles and apparels industry would grow at a CAGR of 6.3% over the next 8-10 years to reach USD 1 trillion by 2020. (Source: Technopak analysis)

India

The Indian textile and clothing industry has tremendous potential to scale new heights in international as well as

domestic markets. A McKinsey Report states that the Indian textile sector will more than triple from USD 70 bn now to USD 220 bn by 2020, recording an annual growth of about 11%. Experts believe that the golden era of the Chinese textiles and clothing exports is over and the production base is gradually shifting from China to India and other low-cost destinations. Besides, India has burgeoning domestic market. Increase in per capita and disposable income coupled with favourable demographics provides huge opportunities to the Indian textiles sector. Thus, there is every reason to be confident about long-term prospects of the Indian textiles industry. (Source: Technopak analysis)

Review of operations

During the year the Company improved its capacity utilisation in the yarns division from 94% in 2009-10 to 95% in 2010-11.

During the year under report, though raw material prices increased significantly, the Company was able to augment its topline and margins, through an efficient cost-push to the end user. The Company's sales increased 38% from Rs. 1148 crore in 2009-10 to Rs. 1585 crore in 2010-11 with exports constituting 35% of the total sales. The Company's gross profit margin also improved from 8.83% in 2009-10 to 13.64% in 2010-11. The Company managed to increase production volumes and entered into newer regions along with growing presence in the domestic markets.

The Company managed to achieve a spectacular performance through various initiatives like quality improvement, upgradation to modern technology, capacity expansion, identifying the right product mix, identifying the right market and various cost reduction initiatives.

Segment-wise performance

Human resources

The Company regularly trains its employees for skill development and motivates them to focus on achieving the Company's goals and objectives. It had 11,531 employees on its payroll as on March 31, 2011.

Ecological social concern

During the year under report, the Company managed to maintain its production of organic cotton yarn at 2,678 tonnes in 2010-11 (2,766 tonnes for 2009-10) with a focus on greater environmental adherence through pollution reduction. The Company also makes effort to increase production of cotton products under fair-trade practices to help socially weaker sections. The Company is also increasing its capabilities to consume re-cycled polyester fibre as a step towards pollution control.

Internal control system

The large size and nature of the business demands the Company to maintain a proper internal control system. Efforts are made by the management to maintain a sound financial and commercial practice capable of improving the efficiency of the operations and sustainability of the business. The system ensures that all assets are safeguarded and protected against loss from unauthorised use or disposition and that those transactions are authorised, recorded and reported correctly. Operating managers make sure that all the operations within their area are compliant and safeguarded against any risks, whereas the internal auditors carry out random audits to detect flaws in the system. Internal audit reports are prepared on the respective areas/units to create awareness and corrective actions are taken to rectify them. These reports are reviewed by the management team and then by the Audit Committee of the Board for follow-up action.

Cautionary statement

The statements in this management discussion and analysis report results could differ materially from those expressed or implied. Important factors that could make a difference to the Company's operations include raw material availability and prices, cyclical demand and pricing in the Company's principal markets, changes in government regulations, tax regimes, forex markets, economic developments within India and the countries with which the Company conducts business and other incidental factors.

The Company did not enter into any other back to back treaties/contracts/ agreements/MoUs or similar instruments with media companies and/or their associates.

I. Investor Safeguards and other Information

(i) Dematerialization of Shares

Shareholders are requested to convert their physical holdings to demat/electronic form through any of the registered Depository Participants (DPs) to avoid the hassles involved in dealing in physical shares such as possibility of loss, mutilation, etc and also to ensure safe and speedy transaction in respect of the shares held.

(ii) National Electronic Clearing Services (NECS)/ Electronic Clearing Services (ECS) mandate

NECS/ECS facility ensures timely remittance of dividend without possible loss/delay in postal transit. Shareholders/Members holding shares in electronic form may register their NECS/ECS

details with the respective DPs and Shareholders/Members holding shares in physical form may register their NECS/ECS details with Registrar and Share Transfer Agents to receive dividends, if declared, via the NECS/ECS mode.

(iii) Timely Encashment of Dividends

In respect of the shareholders who have either not opted for NECS/ECS mandate or do not have such a facility with their banker, are requested to encash dividends promptly to avoid the inconvenience of writing to Company's Share Transfer Agents thereafter for revalidation of dividend warrants and failing their encashment for a period of seven years, they stand to lose the right to claim such dividends owing to transfer of unclaimed dividends beyond seven years to Investor Education and Protection Fund.

(iv) Transfer of unclaimed dividend to Investor Education and Protection Fund (IEPF)

Under the Companies Act, 1956, dividends which remain unclaimed for a period of seven years are required to be transferred to Investor Education and Protection Fund (IEPF) administered by the Central Government. Dates of declaration of dividends since 2005-2006 and the corresponding dates when unclaimed dividends are due to be transferred to the Central Government, are given in the table below:

| Financial Year ended | Date of Declaration of Dividend | Amount remaining unclaimed /unpaid as on 31/03/2011 (Rs.) | Last date for claiming unpaid Dividend amount (on or before) | Last date for transfer to IEPF |
|----------------------|---------------------------------|---|--|--------------------------------|
| 31.03.2006 | 19.09.2006 | 667424.00 | 18.09.2013 | 18.10.2013 |
| 31.03.2007 | 26.09.2007 | 480438.00 | 25.09.2014 | 25.10.2014 |
| 31.03.2008 | 26.09.2008 | 174386.00 | 25.09.2015 | 25.10.2015 |
| 31.03.2009 | 28.08.2009 | 217239.00 | 27.08.2016 | 27.09.2016 |
| 31.03.2010 | 06.08.2010 | 424330.00 | 05.08.2017 | 05.09.2017 |

Members are once again requested to utilize this opportunity and get in touch with Company's Registrar and Share transfer Agents M/s Sharepro Services (India) Pvt. Ltd. at their communication address for encashing the unclaimed dividends standing to the credit of their account.

Members are further requested to note that after completion of 7 years, no claims shall lie against the said funds or Company

for the amounts of dividend so transferred, nor shall any payment be made in respect of such claim.

(v) Update Address/Bank Details

To receive all communications/corporate actions promptly, shareholders holding shares in dematerialised form are requested to please update their address/bank details with the respective DPs and in case of physical shares, the update details

have to be intimated to the Registrar and Share Transfer Agents.

(vi) Consolidate Multiple Holdings (in respect of physical holdings)

Members are requested to consolidate their shareholdings under multiple folios to eliminate receipt of multiple communications and this would ensure that future correspondence / corporate benefits could be sent to consolidated folio.

(vii) Register email address

As you all may be aware, Ministry of Corporate Affairs has taken a 'Green Initiative in Corporate Governance' by issuing Circulars 17/2011 and 18/2011 dated 21st April, 2011 and 29th April, 2011, whereby Companies are permitted to send Notice/ documents including Annual Report comprising Balance Sheet, Profit and Loss Account, Directors Report, Auditors Report etc in electronic mode (hereinafter 'documents'), provided the Company has obtained email address of its members for sending these documents through email by giving an advance opportunity to every shareholder to register their email addresses and changes therein from time to time with the Company.

Accordingly, shareholders holding shares in physical form are requested to register their email addresses and changes therein from time to time, by directly sending the relevant email

addresses along with the details such as name, address, folio no, no of shares held to the Registrar and Share transfer Agents, M/s Sharepro Services (India) Pvt Ltd.

In respect of shares held in electronic form, the email address along with DP ID/Client ID and other shareholder details as mentioned above, should be registered by the shareholders with their respective Depository Participants. Upon registration of the email address, the Company proposes to send notices and documents, in electronic form to such shareholders.

Auditors' Report

To,
The Shareholders

1. We have audited the attached Balance Sheet of SUTLEJ TEXTILES AND INDUSTRIES LIMITED, as at 31st March, 2011 and also the Profit and Loss account and the Cash Flow Statement for the year ended on that date annexed thereto. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.
2. We conducted our audit in accordance with auditing standards generally accepted in India. Those Standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating, the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.
3. As required by the Companies (Auditor's Report) Order, 2003 (as amended) issued by the Central Government of India in terms of sub-section (4A) of Section 227 of the Companies Act, 1956, we enclose in the Annexure a statement on the matters specified in paragraphs 4 and 5 of the said Order.
4. Further to our comments in the Annexure referred to above, we report that:
 - i. We have obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - ii. In our opinion, proper books of account as required by law have been kept by the Company so far as appears from our examination of those books and proper returns adequate for the purpose of our audit, have been received from the branches/depots not visited by us. The report on the account of branch audited by other auditor has been forwarded to us and has been appropriately dealt by us in preparing our report;
 - iii. The Balance Sheet, Profit and Loss account and Cash Flow statement dealt with by this report are in agreement with the books of account and with the returns from the branches/depots;
 - iv. In our opinion, the Balance Sheet, Profit and Loss Account and Cash Flow Statement dealt with by this report comply with the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956;
 - v. On the basis of written representations received from the directors as on 31st March, 2011 and taken on record by the Board of Directors, we report that none of the directors is disqualified as on 31st March 2011, from being appointed as directors in terms of clause (g) of Sub-section (1) of Section 274 of the Companies Act, 1956;
 - vi. In our opinion and to the best of our information and according to the explanations given to us, the said accounts read together with notes thereon give the information required by the Companies Act, 1956, in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India;
 - a) In the case of the Balance Sheet, of the state of affairs of the Company as at 31st March, 2011.
 - b) In the case of the Profit and Loss account, of the profit of the Company for the year ended on that date and

Notes forming part of the Balance Sheet and Profit and Loss Account

SCHEDULE 22 NOTES ON ACCOUNTS

1) Nature of Operations

The Company is a manufacturer of Synthetic Staple Fibres Yarn, Man made Fibres blended yarn & Cotton Yarn and Fabrics. It has two spinning units viz. Rajasthan Textile Mills, Bhawanimandi (Raj) & Chenab Textile Mills, Kathua (J & K), one weaving & processing unit viz. Damanganga Fabrics, one Garments unit viz. Damanganga Garments and one Home Textiles unit viz. Damanganga Home Textiles at Village Daheli, near Bhilad (Gujarat) .

2) Accounting Policies

(A) Basis of Accounting

The financial statements have been prepared to comply in all material respects with the mandatory Accounting Standards issued under the Accounting Standard Rules, 2006 notified by the Central Government and the relevant provisions of the Companies Act, 1956. The financial statements have been prepared under the historical cost convention on accrual basis except in case of claims lodged with Insurance Companies but not settled and interest on overdue debts from customers which are accounted for on receipt basis on account of uncertainties.

(B) Use of Estimates

The preparation of financial statements requires estimates and assumptions to be made that affect the reported amount of assets and liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates are recognised in the period in which the results are known/ materialised.

(C) Revenue Recognition

- (i) Revenue from sales is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer, which generally coincides with the delivery.
- (ii) Revenue (other than sale) is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.
- (iii) Revenue from process of fabrics are recognised on delivery of the goods to customers/when the goods are ready for delivery. When goods are partly processed, the expenses so incurred is shown as work- in- progress.

(D) Fixed Assets

Fixed assets are stated at cost less accumulated depreciation and impairment losses, if any. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use. The carrying amounts are reviewed at each balance sheet date, if there is any indication of impairment based on internal/external factors. An impairment loss is recognised wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is greater of the assets net selling price and value in use. In assessing, value in use, the estimated future cash flows are discounted to their present value at the weighted average cost of capital.

(E) Depreciation

Depreciation on Fixed Assets installed upto 31.3.1992 continues to be provided at written down value method and depreciation on assets installed on or after 1.4.1992 has been charged at straight line method as per the rates and manner prescribed in the Schedule XIV of the Companies Act, 1956. Depreciation on additions due to Machinery spares is provided retrospectively from the date the related assets are put to use. Depreciation on additions to or on disposal of assets is calculated on pro-rata basis. Leasehold land is being amortised over the period of lease tenure. Additions on rented premises are being amortised over the period of rent agreement. Software and Designing Rights being Intangible Assets are depreciated over five years.

(F) Foreign Currencies

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction. Monetary items related to Foreign Currencies transactions are restated at year end exchange rates. All exchange differences arising from such conversion including gain or loss on cancellation of foreign currency forward covers are included in the Profit & Loss Account. Premium/Discount on Forward Covers is recognised over the length of the contract.

SCHEDULE 22 NOTES ON ACCOUNTS (Contd.)

(G) Inventories

- i) Inventories are valued as follows:

| | |
|-------------------------------------|--|
| Raw materials, stores and spares | Lower of cost and net realisable value. Cost is determined on a weighted average basis. Materials and other items held for use in the production of inventories are not written down below costs, if finished goods in which they will be incorporated are expected to be sold at or above cost. |
| Work-in-progress and finished goods | Lower of cost and net realisable value. Cost includes direct materials, labour and a proportion of manufacturing overheads. Cost of finished goods includes excise duty, wherever applicable. Also refer Note No. 2 (C) (iii) above. |
| Waste | At net realisable value. |

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and to make the sale.

- ii) Finished Goods and Work-in-progress have been valued as per the principles and basis as in the previous year/consistently followed.
- iii) Provision for obsolete/old inventories is made, wherever required.
- iv) Inter unit transfers of material for further processing is being made at market rate prevailing at the time of such transfers and inventories of such "transfers" if any, is also valued accordingly as same could not be identified separately and in the opinion of the management such valuation have no material impact on inventory valuation. Such stock at the year end are shown as part of raw materials inventory.
- v) In view of substantially large number of items in work-in-progress, it is not feasible to maintain the status of movement of each item at shop floor on perpetual basis. The Company, however, physically verifies such stocks at the end of every month/quarter and valuation is made on the basis of such physical verification.

(H) Retirement and other employee benefits

1. Retirement benefits in the form of Provident Fund and Superannuation Scheme, which are defined contribution plans, are charged to the Profit & Loss Account of the year when the contributions to the respective funds are due.
2. Gratuity and Leave encashment which are defined benefits, are accrued based on actuarial valuation at the balance sheet date carried out by an independent actuary using the projected unit credit method.
3. Gratuity liability is being contributed to the gratuity fund formed by the Company.

(I) Excise Duty

Excise duty is paid on clearance of processed fabrics (for work done on job basis for outside parties). No provision for excise duty is made in the accounts for fabrics processed (for work done on job basis for outside parties) and lying in factory premises at the end of the year as the same is recoverable from the parties.

(J) Investments

Long Term Investments are stated at cost. The Company provides for diminution other than temporary in the value of Long Term Investments. Current Investments are valued at lower of cost or fair value.

(K) Taxation

Current tax is measured at the amount expected to be paid to the revenue authorities, using the applicable tax rates and laws. Deferred tax for timing differences between the book and taxable Income for the year is accounted for using the tax rates and laws that have been enacted or substantively enacted as of the balance sheet date. Deferred Tax Assets arising from temporary timing differences are recognised to the extent there is reasonable certainty that the assets can be realised in future and the same is reviewed at each Balance Sheet date.

MAT Credit is recognized as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. In the year in which the Minimum Alternate Tax (MAT) credit becomes eligible to be recognized as an asset in accordance with the recommendations contained in Guidance Note issued by Institute of Chartered Accountants of India, the said asset is created by way of a credit to the profit and loss account and shown as MAT Credit Entitlement. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that Company will pay normal Income Tax during the specified period.

Notes forming part of the Balance Sheet and Profit and Loss Account

SCHEDULE 22 NOTES ON ACCOUNTS (Contd.)

(L) Government Grants and Subsidies

Grants and Subsidies from the government are recognised when there is reasonable assurance that the grant/subsidy will be received and all attaching conditions will be complied with. When the grant or subsidy relates to an expense item, it is recognised as income or deducted from the relevant expense in the year of sanction of grant or subsidy.

Government Subsidies received/receivable relating to depreciable Fixed Assets are being treated as Deferred Income as required by Accounting Standard - 12, which are recognised in Profit and Loss Account over the useful life of the respective assets.

(M) Borrowing Cost

Borrowing Cost attributable to the acquisition or construction of qualifying fixed assets, are capitalised as part of the cost of such assets upto the date of commencement of commercial production/put to use of plant. Other Borrowing costs are charged to revenue.

(N) Expenditure on new projects , substantial expansion and during construction period

Expenditure directly relating to construction activity is capitalised. Indirect expenditure incurred during construction period is capitalised as part of the indirect construction cost to the extent to which the expenditure is indirectly related to construction or is incidental thereto. Other indirect expenditure incurred during the construction period, which is not related to the construction activity nor is incidental thereto is charged to the Profit & Loss Account. Income earned during construction period is deducted from the total of the indirect expenditure.

All direct capital expenditure on expansion is capitalised. As regards indirect expenditure on expansion, only that portion is capitalised which represents the marginal increase in such expenditure involved as a result of capital expansion. Both direct and indirect expenditure are capitalised only if they increase the value of the asset beyond its originally assessed standard of performance.

Expenditure during construction/installation period is included under capital work-in-progress and the same is allocated to respective Fixed Assets on the completion of its construction.

(O) Provisions

A provision is recognised when an enterprise has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions except those disclosed elsewhere in the notes to the financial statements, are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

(P) Derivatives

Outstanding derivatives contracts, other than those covered under AS-11, at the year end are Marked to Market Rate, and Loss, if any, are accounted for in the Profit & Loss Account. As prudent accounting policy, gain on marked to market at the end of year are not accounted for.

SCHEDULE 22 NOTES ON ACCOUNTS (Contd.)

- 5) The Company has not received any intimation from its suppliers being registered under Micro, Small and Medium Enterprises Development Act, 2006 (MSME). Hence the necessary disclosure required under the schedule VI of the Companies Act, 1956 and MSME Act, 2006 can not be made. However, the Company generally makes payment to all its suppliers within the agreed credit period (generally less than 45 days) and thus the Management is confident that the liability of interest under this act, if any, would not be material.
- 6) In respect of Okara Mills, Pakistan, (Which remained with the Company as a result of transfer of textiles division of Sutlej Industries Limited with the Company) no returns have been received after 31.03.1965. Against Net Assets of Okara Mills, Pakistan amounting to Rs. 232.35 lakhs, the demerged/transferor Company had received adhoc compensation of Rs. 25 lakhs from Government of India in year 1972-73. These Assets now vest in the Custodian of Enemy Property, Pakistan for which claim has been filed with the Custodian of Enemy Property in India. The Company shall continue to pursue its claim for compensation/restoration of assets. Hence, further compensation, if any received, credit for the same will be taken in the year of receipt. In the year 2003-04, net assets of Rs. 207.35 lakhs (net of compensation received) as on 31.03.1965, valued at pre-devaluation Exchange Rate, being diminution in value has been provided for.

Dear Shareholder,

Subject: **Green Initiative in Corporate Governance.**

As a responsible Corporate Citizen, your Company welcomes and supports the 'Green Initiative' taken by the Ministry of Corporate Affairs, Government of India (MCA) vide its Circular Nos.17/2011 dated April 21, 2011 and 18/2011 dated April 29, 2011.

The Green Initiative endeavors to reduce consumption of paper, in turn preventing deforestation and contributes towards a green and clean environment-a cause that we at Sutlej Textiles and Industries Ltd are committed to. This initiative is also aligned to our Mission Statement of demanding that everything we do leads to a clear, healthier, safer environment. In furtherance of these initiatives, the company invites its shareholders to participate in the Green Initiatives to affirm its commitment towards future generations.

Keeping in view the above, your company proposes to send documents like Notice convening Annual General Meeting, Audited Financial Statements, Directors' Report, Auditors' Report etc in electronic form. For supporting this initiative:-

- 1) If you hold shares in electronic form, kindly intimate your email ID to your Depository Participant (DP). The same will be deemed to be your registered email address for serving notices/documents.
- 2) If you hold shares in physical form, kindly intimate your email ID to the Company's Registrar & Transfer Agent (RTA) at the following address:

Sharepro Services (India) Pvt.Ltd.
Samhita Complex,
Gala No. 52 to 56, Building No. 13A-B
Near Sakinaka Telephone Exchange,
Andheri – Kurla Road, Sakinaka,
Mumbai 400 072

The request letter should be signed by the first/sole holder as per the specimen signature recorded with the RTA and should mention your correct folio number. If you do not register your email ID, a physical copy of the Annual Report and other communication/documents will be sent to you free of cost, as per the current practice. These documents will also be available on the Company's website: www.sutlej-textiles.com.

We strongly urge you to support this 'Green Initiative' and opt for electronic mode of communication by advising your email ID to your DP/Sharepro Services (India) Pvt Ltd.

It may be noted that you will be entitled to be furnished free of cost, with a copy of Annual Report and all other documents required by law upon receipt of a requisition from you, any time, as a member of the Company.

We solicit your support to join in this initiative in reducing the impact on the environment and receive all communications electronically.

Thanking You,

Yours truly,

For Sutlej Textiles and Industries Ltd

EXPLANATORY STATEMENT PURSUANT TO SECTION 173(2) OF THE COMPANIES ACT, 1956

Item No. 8

Section 293(1)(e) of the Companies Act, 1956 (the Act), states that except with the consent of the Company in the General Meeting, the Board of Directors of the Company may not contribute to charitable and other funds (contributions), not directly related to the business of the Company or the welfare of its employee, any amounts; the aggregate of which in any financial year shall exceed fifty thousand rupees OR five per cent of the average net profits, during the three financial years immediately preceding, as determined in accordance with the provisions of sections 349 and 350, whichever is higher.

After the emergence of this company as a demerged entity from the erstwhile Sutlej Industries Limited, due to absence of referral period of three years (then), a specific consent of the shareholders was obtained under section 293 of the Act at the Annual General Meeting held on 26th September, 2007. However, under this consent, the shareholders' resolution constrained the upper limit for contributions as not to exceed Rs.1.00 crore for any financial year. It is now proposed that the said figure of Rupees one crore shall be the lower minimum, in the case of insufficiency of profits.

In view of the tradition of your company in supporting social causes and responsibilities which your company is proud of espousing, the Company wishes to obtain the consent of the shareholders to the above resolution in the Annual General Meeting.

The directors commend the resolution for your approval. None of the Directors of the Company is concerned or interested in this resolution.

Item No. 9

Under Section 309 of the Companies Act, 1956 (the Act), and clause 129 of the Articles of Association of the Company, the Company can make payment of Commission to Directors. Commission can be paid to the Directors with the approval of shareholders by way of a special resolution, which will remain in force for a period not exceeding five years and may be renewed from time to time.

Shareholders had approved payment of commission to the Directors at the Annual General Meeting held on 19.6.2006. Commission is payable to the directors, who are not in the wholetime employment of the Company.

As per the powers vested in the Board, for the years 2006-07 and upto 2009-10, the Board had fixed in its discretion, a ceiling on commission of Rs.1.00 Lakh per Director, which was enhanced to Rs.2.00 Lakhs for the financial year 2010-11.

It is proposed that the Company may be authorized to pay commission to its Directors within the ceilings provided under section 198 and 309 of the Companies Act, with power to the Board in determining the ceiling per director. As the payment of commission shall be within the percentage prescribed in Section 309 (4) of the Companies Act, 1956, approval of the Central Government is not required.

All the Directors to the extent of commission payable to them, are interested in the Resolution.
