Financial section

Weak sectoral environment. Slow offtake.

*The year 2015-16 was a defining year for Sutlej Textiles and Industries Limited.*

Sluggish demand. Price erosion. Liquidity mismatch.

*The Company weathered one of the most challenging sectoral realities.*

Most companies would have staggered business investments.

*Sutlej undertook organic and inorganic growth measures.*

Most companies would have selected to wait and watch.

*Sutlej rallied behind the message 'Charged to grow higher.'*

In this despondent reality, Sutlej reported profitable growth.

*20% growth in revenues. 24% increase in profit after tax.*

# CHARGED TO **GROW HIGHER**

# Sutlej Textiles has two robust businesses.

**One**, the manufacture of specialised value-added dyed yarns.

**Two**, the manufacture of home textiles.

The combination of these high-margin businesses is expected to accelerate revenues, enhance margins and reinforce sustainability across business cycles.

## PARENTAGE

- A flagship company of the multi-business conglomerate promoted by the late Dr. K.K. Birla.
- Corporate office is situated in Mumbai with four manufacturing units in Jammu and Kashmir, Himachal Pradesh, Rajasthan and Gujarat.
- Possesses IS/ISO-9001:2008 certification; bestowed with 'Usterised' license by Uster Technologies, Switzerland, for its Kathua Unit
- Conferred the OCS-IN (Organic Content Standard), GOTS-IN (Global Organic Textiles Standard) and Oeko-Tex Standard 100 certifications

## VISION

We have set our sights on emerging as a front-runner in the realm of global textiles by providing end-to-end solutions– from yarns to home textiles. We aim to create maximum value for our customers so as to emerge as their partners-of-choice.

## MISSION

We believe in challenging our limits and overcoming them. We also believe that as time changes, one must evolve one's thinking.

EXECUTIVE CHAIRMAN'S OVERVIEW

# We are charged to **grow higher!**

*Dear Shareholders*

I am pleased to present our performance for 2015-16 wherein the Company's revenues increased 20% while profit after tax strengthened 24%. I must assure shareholders that given the diverse challenges that the sectoral and company encountered, this profitable growth represents a validation of our strategic direction.

CS Nopany, *Executive Chairman*

## Strategic direction

Over the last few years, Sutlej resolved to escape the cyclical trap of its business. The Company began to focus on a long-term strategy whereby any decline in sectoral fortunes would have at worst a minimal impact on its revenue and profits where as a sectoral rebound would immediately translate into an improved topline and bottomline.

The core of this counter-cyclical strategy was that we would:

- Maximise the production of value-added yarn varieties
- Accelerate capacity creation at the lowest cost in the shortest time
- Strengthen cost leadership, and
- Enhance capacity of fast-growing synergistic businesses (Home Textiles)

This strategic direction has already been validated. During the year under review, Sutlej reported increased revenues and profits even while it was engaged in aggressive reinvestment with the objective to enhance capacity and sustain profit growth. I have no doubt that as the import of this strategy unfolds, revenues, profits and margins will strengthen, graduating the Company to the next orbit of scale, growth and sustainability.

## Challenges

The global economy continued to be sluggish with World Bank moderating 2015 growth forecasts from an initial 3.3% to 3.1% compared to 3.3% growth achieved in 2014.

The global textile industry continued to suffer from an extended slowdown, marked by sluggish off-take on the one hand and price erosion on the other. The result was that most textile manufacturers reported a decline in revenues and profits, affecting their overall sustainability.

India's rural economy continues to reel under the impact of a second successive weak monsoon, which affected rural incomes and consumption engines. In turn, this translated into a slower off-take of fabric, which in turn affected yarn realisations.

The growth of India's infrastructure sector was affected by weak policy implementation and correspondingly weak government investment. This weakness affected rural employment and incomes, translating into weaker prospects for the country's textile sector.

China reported its weakest annual growth in about a quarter of a century. The result was that China moderated the consumption of a number of products, textiles included. The result was that realisations of textile products declined the world over, affecting the viability of related manufacturers.

In 2015-16, the Company's revenues increased

# 20

% while profit after tax rose 24%.

## Our counter-cyclical strategy

- Maximise the production of value-added yarn varieties
- Accelerate capacity creation at the lowest cost in the shortest time
- Strengthen cost leadership, and
- Enhance capacity of fast-growing synergistic businesses (Home Textiles)

## Sutlej counter-response

At Sutlej, we had proactively prepared for this sectoral slowdown through an overarching focus: stronger customer orientation.

The Company studied emerging customer needs, worked closer with customers, developed new products and empowered customers to win in their respective markets through timely investments in business diversification, capacity increase and evolving product mix.

Our revenue increase with enhancement in profit should be seen as positive achievements in this scenario.

### Despite a sweeping sectoral slowdown...

- Sutlej increased revenues in four of the last five years
- Sutlej increased PAT in four of the last five years
- Sutlej invested in capacity building in four of the last five years

### Despite declining realisations across the board...

- Sutlej increased the proportion of premium yarn sales in its product mix
- Sutlej improved average yarn realisations in three of the last five years

At Sutlej, we had visualised that the most effective strategy to counter a business slowdown would lie in capacity addition and revenue growth. In view of this, the Company acquired the Birla Textile Mills (BTM) spindle capacity of 83,376 spindles in financial year 2015-16 and is set about enhancing the Company's overall capacity by 35,280 spindles in financial year 2016-17. The larger volumes helped the Company effectively amortise fixed costs. The result was that the Company reported an increase in profits, validating its acquisition and expansion priorities.

At Sutlej, we had recognised that capacity increase would not alone be enough; what we would require was a churn in our yarn manufacturing capacity towards value-added yarn varieties. In line with this priority, the Company increased the proportion of spindles dedicated to cotton blended and cotton mélange dyed yarns from 23% in 2011-12 to 29% in 2015-16. Besides, the proportion of revenues derived from these premium yarns also increased.

At Sutlej, we had anticipated that it would not be adequate to play the game in a better way; it would be necessary to change the game itself. The result was that some years ago, we invested in the manufacture of home textile products. We are pleased to state that during the year under review, this nascent division turned around, providing us with the incentive to substantially scale its capacity across the foreseeable future.

The result of these initiatives was that overall capacity utilisation of Sutlej stands above 95% in 2015-16, and virtually marketed all that it manufactured. This reality indicates that Sutlej does not make to stock but makes to order; that Sutlej enjoys robust and enduring customer relationships that represent a steady order pipeline across market cycles; that Sutlej has strengthened its credentials as a sustainable textiles organisation.

## Sectoral optimism

There are a number of reasons why I am optimistic of our prospects.

The downtrend in the global textiles sector could end over the foreseeable future as soon as global demand revives.

The Indian government's push to the rural sector through its recent Union Budget and Make in India policy is expected to strengthen rural consumption.

The infrastructure-building emphasis is expected to kick start the Indian economy.

## Corporate trickle-down

At Sutlej, we are attractively placed to capitalise on national and sector revival for some good reasons.

**One**, there is a distinctive organisational clarity about what we are and what we desire to do. The result is an overarching respect for return on invested resources; the Company will select to invest in only those businesses and their related niches that generate optimal returns and enhance (not merely maintain) overall profitability.

**Two**, we possess a robust Balance Sheet that is only likely to get stronger. For one, we are already invested (and financially closed) for nearly

three straight years of growth starting 2016-17. Our attractive depreciation provision provides adequate resources to fund year on year capacity investments. The accruals that we are likely to generate from the timely implementation of upcoming projects will be value-added and high-margin. These accruals, in turn, are likely to be invested in debt liquidation, strengthening our Balance Sheet. We believe that an under-borrowed Balance Sheet and an improving credit rating will serve as a foundation for low-cost funds mobilisation (a sustainable advantage) whenever we consider the need to finance organic or inorganic business opportunities.

As the Company was exploring for inorganic growth in its spinning capacity, it acquired Birla Textile Mills (BTM) having a capacity for 83,376 spindles during the year. The BTM acquisition provided the Company operational spinning capacity and also benefited through adding new customers in the domestic and export markets.

**Three**, our Home Textiles business is at the cusp of an attractive take-off. The business

turned around during the financial year under review, allaying the fears of analysts that this would eat into our profitability. Our focus on curtains and upholstery proved relevant, our designed products were well accepted, our customer relationships proved enduring, and our order books are growing. This encouraging reality encouraged us to increase our production capacity from 0.42 mn metres per month in 2014-15 to a projected 0.8 mn metres a month (projected commissioning by the close of 2016-17).

**Four**, there is a sectoral shakeout likely to transpire for reasons that extend beyond the industry slowdown. The Indian government modified significantly its concessional TUFs loan arrangement for the country's textiles sector in January 2016. With the advantage of this low cost funds pipeline declining over time, textile manufacturers will need to bank on the strength of their Balance Sheet to mobilise low cost funds. At today's spindle commissioning costs and without concessional debt, we believe that greenfield

textile projects will lose its attractiveness, strengthening prospects of competitive long-standing textile manufacturers. Your Company will be attractively placed following debt repayment, an increased net worth and stronger credit rating, creating attractive operating leverage to fund sustainable growth.

**Five**, the financial mechanics of what is behind our performance for the last financial year indicates that we are headed in the right direction. For instance, even as our total debt increased by ₹169.39 crore during the year under review, our finance cost was pegged at ₹46.52 crore as compared with ₹52.99 crore in last year, a sign that bankers are beginning to correlate the strength of our business model into their lending terms. We believe that the full benefit of this will be progressively manifested when our additional capacities are fully implemented, setting in motion a virtuous cycle of profitable growth.

### Overview

I must assure shareholders that our relative strength at a time

of sectoral weakness provides an insight into our competitive position and the fact Company is indeed placed at an attractive inflection point. If this is how we performed during the deep end of a sector downtrend, then I am robustly optimistic of our prospects when the sector rebounds.

As our investments translate into timely project commissioning across the foreseeable future, we expect to report higher revenues, superior margins and increased surpluses that graduate us into the next growth orbit.

As we say at Sutlej, we are charged to grow higher!

I would like to thank all the stakeholders for their continued support.

With best regards,

**C.S Nopany**

### Despite challenges in textile sector...

- Sutlej improved its financial performance, which resulted in a credit rating upgrade from BBB in FY 13-14 to CARE AA-, IND AA- (stable outlook) in FY 15-16.
- Sutlej de-leveraged and reduced average cost of debt in the last couple of years by about 200 bps.
- Sutlej strengthened its gearing in four of the last five years.

The Company's overall capacity is expected to increase by

# 35,280

spindles in financial year 2016-17.

1

## BUILDING ADDITIONAL CAPACITIES

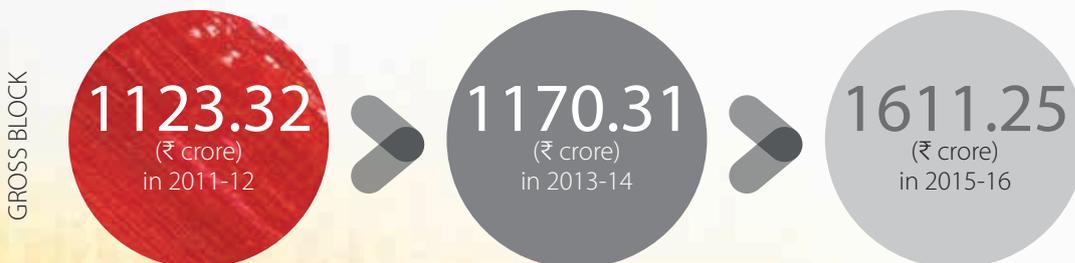

At Sutlej, we have built capacities – linear and non-linear. We built linear capacity through progressive capacity addition, which enhanced our operating economies. Concurrently, we embraced complex yarn manufacture around a comprehensive yarn solutions positioning. The Company extended to non-linear capacity addition through an extension to the adjacent value-added space of home textiles.

2

## UPGRADING ASSET QUALITY

Sutlej did not just enhance capacity; it invested in cutting-edge technologies that enhanced operating efficiency on the one hand (greater output from a given resource quantity) and made it possible for the Company to graduate to value-added dyed yarns and home textile products. This investment made it possible for the Company to sustain efficiency and resist cyclical downtrends more effectively.

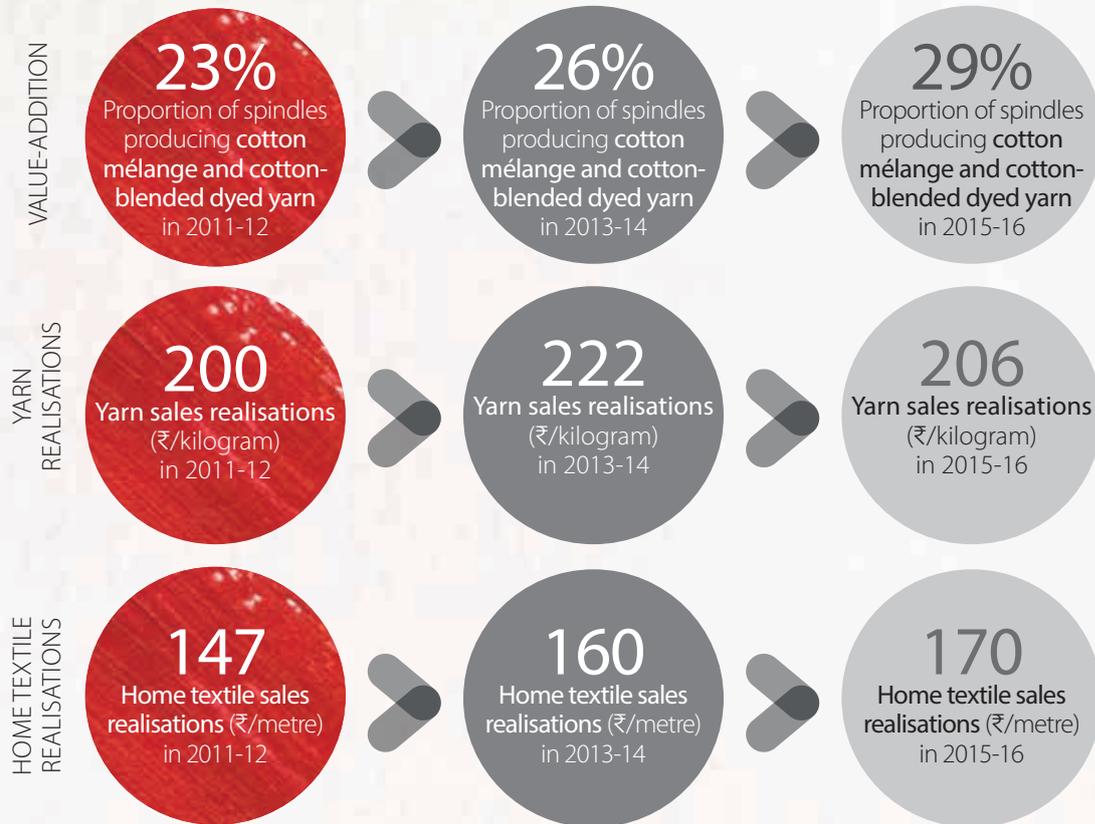

### 3

## ENHANCING PRODUCT VALUE

Sutlej created products around emerging lifestyle-driven consumer preferences. The Company focused on niche products like cotton blended and cotton mélange dyed yarns as well as contemporary home textile designs. In doing so, the Company helped grow the market for niche products as opposed to merely addressing existing demand.

Value-added cotton mélange and cotton-blended dyed yarns accounted for 39% of the Company's 2015-16 yarn revenues. The Company modified the product mix of the recently-acquired Birla Textile Mills towards value-added yarn varieties which will become increasingly visible from 2016-17 onwards.

# 4

## ENTERING NEW TERRITORIES

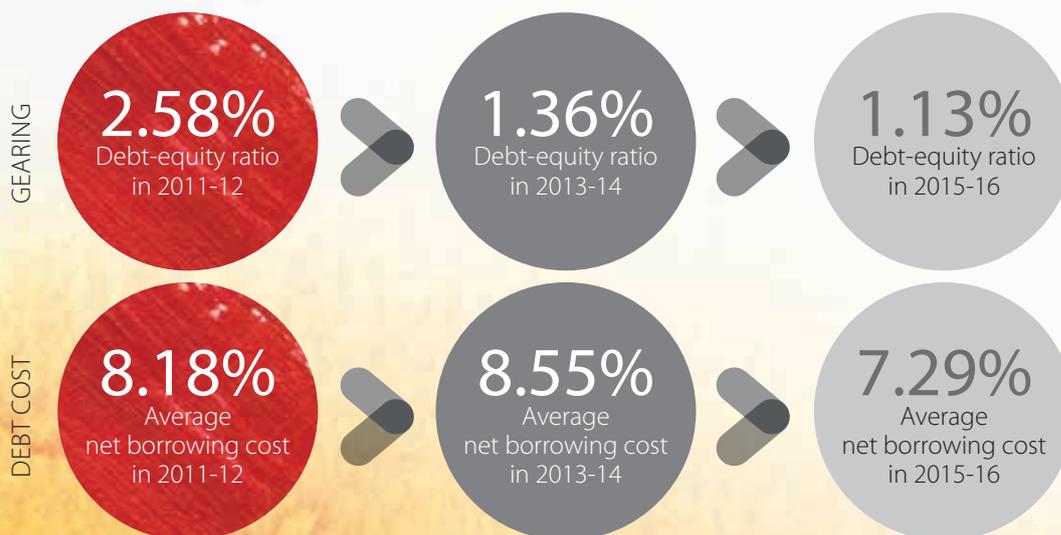

As a prudent growth initiative and a de-risking measure, Sutlej has established a wide presence globally with enhanced focus on profitable countries. This made it possible for the Company to enter growth geographies, carve out a larger national wallet share, generate logistical economies, enhance capacity utilisation, ensure superior fixed cost amortisation and de-risk the Company from a dependence on select geographies. Yarn exports contributed 27.62% to the Company's yarn revenues in 2015-16

# 5

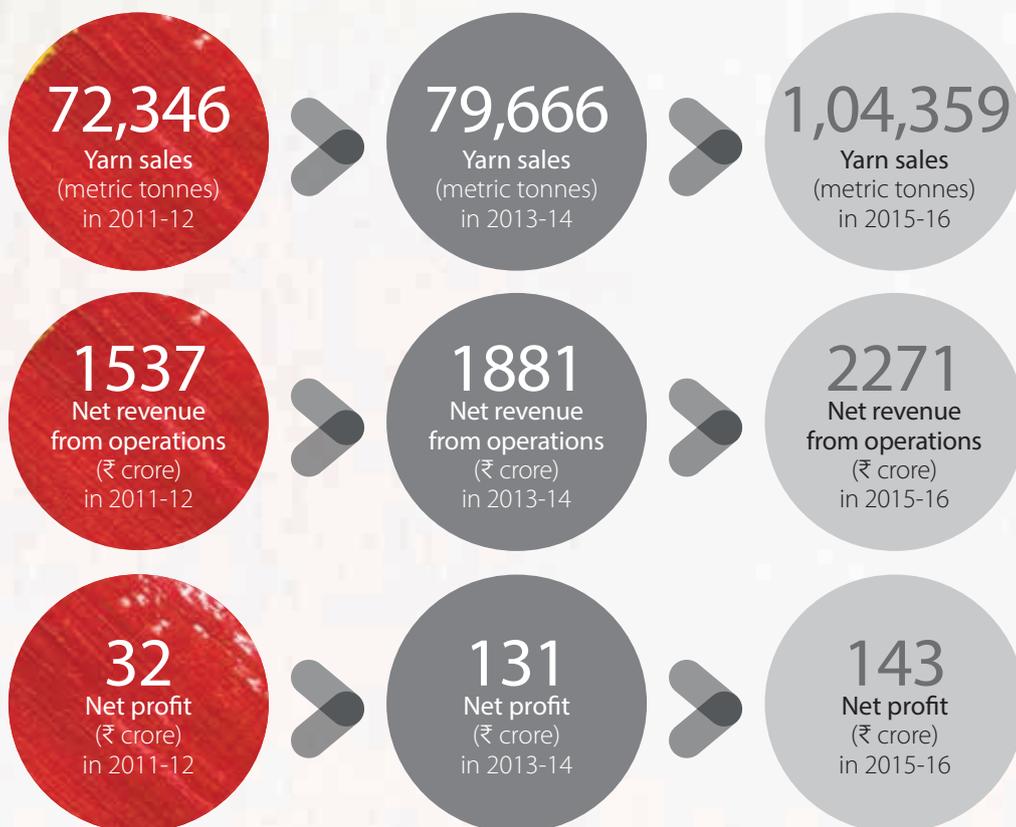

## REINFORCING OUR BALANCE SHEET

Sutlej selected to use accruals (over debt) to build assets, helping moderate gearing and enhance interest cover in a capital-intensive sector. Nearly 37% investments in the three years leading to 2015-16 were funded from internal accruals. Sutlej controlled its gearing to 1.13. Sutlej employed new tools to mobilise funds, resulting in interest savings. The Company switched from high-cost working capital loans to commercial paper and packing credit in foreign currency. Interest rates on term loans reduced by 200 bps during the last two years. The result: while the Company's borrowings increased to ₹767 crore in 2015-16, interest outflow remained at existing levels.

## Strengths

---

You have seen how we performed in a challenging FY16.

**This is what we expect to achieve across the foreseeable future.**

## SPECIALISED YARNS BUSINESS

At Sutlej, we intend to retain our capacity and volume leadership in cotton mélangé and cotton-blended dyed yarn through sustained capacity investments, growing throughput and realisations leadership

## HOME TEXTILES BUSINESS

At Sutlej, we quadrupled capacity effective end-2016-17. The investment is likely to reflect completely in our working from 2017-18 onwards. This represents a growth business for our Company.

## BUSINESS MIX

At Sutlej, we intend to graduate beyond our predominant yarns personality into a textile major with two large and growing businesses – specialised yarns and Home Textiles – marked by respective leadership related to exports from India.

## COUNTER-CYCLICALITY

At Sutlej, we do not just expect to grow; we aspire to robust counter-cyclicality manifested in the ability to resist sectoral downtrends with the least erosion in margins and profits and capitalise on sectoral rebounds through market-outperforming gains.

## GEARING

At Sutlej, we expect to progressively moderate our gearing over the next three years despite prospective capacity growth.

## VALUE

At Sutlej, we aspire to graduate a position of industry respect reflected in an increase in market capitalisations by 108.18% (as compared with 31 March 2014) across listed textile companies in India and one of the best asset-turnover ratios in India's textile sector

# Charged to **grow higher!**

Over the years, Sutlej invested extensively in competencies with the objective to remain attractively profitable and sustainable across sectoral cycles

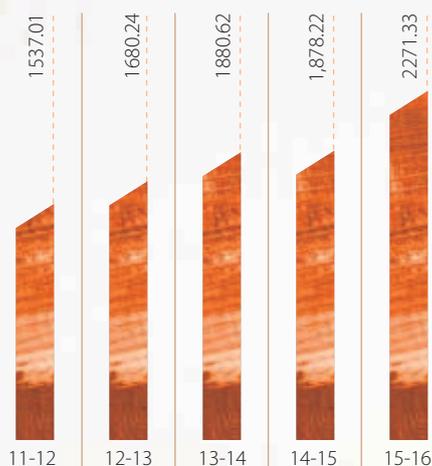

## Competence: Domain knowledge

**Impact:** Sectoral outperformance

**Strategy:** Sutlej leveraged its rich multi-decade sectoral bandwidth to grow its core specialised yarns business (cotton, acrylic, polyester, viscose and modal, among others) across different price position the one hand and diversify into the home textiles niche on the other.

**Result:** Growth consistently faster and significantly higher than the sectoral average.

Net revenue from operations  
(₹ crore)

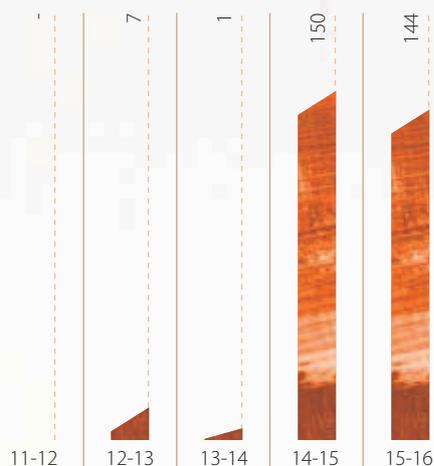

## Competence: Multi-cycle investing

**Impact:** Enhanced opportunity-readiness

**Strategy:** Sutlej invested ₹1191 crore in the decade leading to 2015-16; the Company diversified into specialty value-added yarns and home textiles; it increased investments during the downturn

**Result:** Going forward, the Company is likely to outperform through these robust growth engines (specialised yarns and Home Textiles)

Investment in capacity addition (y-o-y)  
(₹ crore)

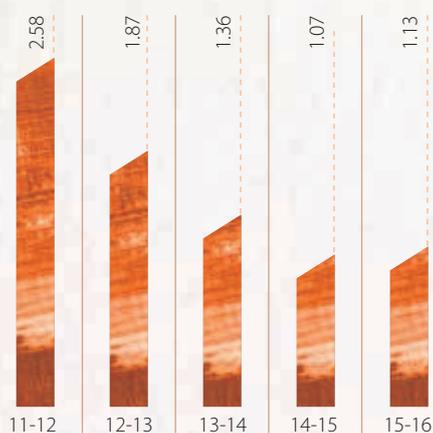

### Competence: Financial liquidity

**Impact:** Ability to invest across market cycles (especially downturns)

**Strategy:** The Company selected to grow to the extent its Balance Sheet permitted. Besides, it intends to liquidate debts and strengthen gearing below 1.0.

**Result:** Stronger Balance Sheet; increasing room to borrow at lower rates should needs arise.

#### Total debt-equity ratio

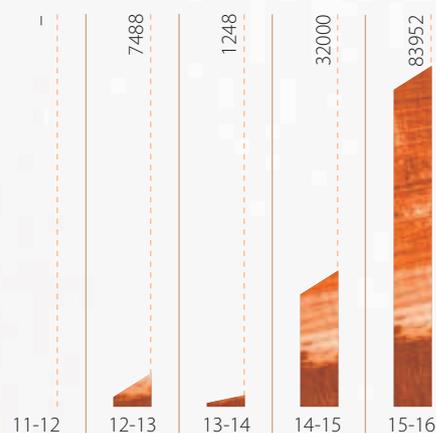

### Competence: Opportunity-readiness

**Impact:** Ability to sustain business growth

**Strategy:** The Company added 138,280 spindles in the last decade; acquired 83,376 spindles from Birla Textile Mills (increasing spindle capacity to 377688).

**Result:** Commenced production of value-added cotton mélangé and cotton-blended dyed yarns.

#### Spindle addition (y-o-y)

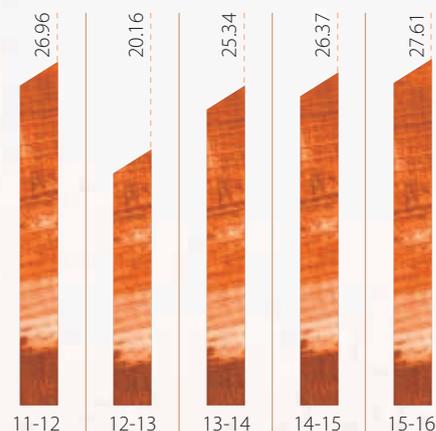

### Competence: Widening geographic presence

**Impact:** Enhanced ability in addressing global demand upturns, lifestyle changes and geographic de-risking

**Strategy:** The Company selected to widen operations across 55 countries, one of the highest among Indian yarn exporters

**Result:** Global exposure increased by 26.59% in 2015-16; no country accounted for more than 10% of revenues except for one country which accounted for 33%.

#### Exports as % of revenues

### Competence: Solutions provider

**Impact:** Ability to provide a customer a complete procurement peace of mind.

**Strategy:** Widened the product range and depth (colours, blends, counts); positioned as a one-stop spun-dyed yarn shop.

**Result:** Graduated beyond a commodity trap; evolved into consultant, collaborator and producer

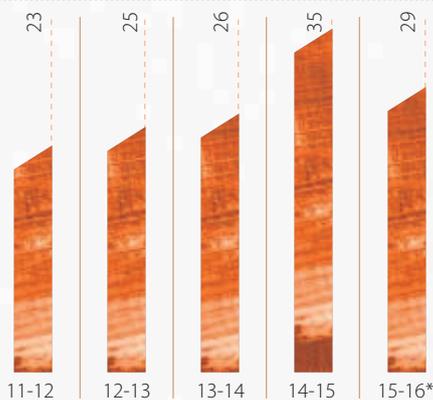

### Competence: Niche value-added dyed yarn

**Impact:** Enhanced ability in countering yarn commoditisation and price erosion

**Strategy:** Increased capacities for value-added cotton mélange and cotton-blended dyed yarns; Company retained its position as India's largest manufacturer of value-added dyed synthetic and cotton mélange dyed yarns.

**Result:** Despite challenging circumstances, the Company sustained its margins.

#### Proportion of value-added cotton mélange and cotton-blended dyed yarn in the total capacity (%)

\*in FY 2015-16, the Company acquired BTM

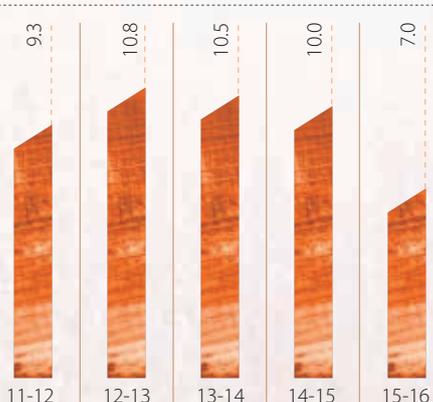

### Competence: Financing mix

**Impact:** Widened financing flexibility; lowered costs

**Strategy:** The Company increasingly utilised accruals in asset building, helping moderate gearing in a capital-intensive sector. The Company replaced high-cost working capital loans with lower cost commercial paper and packing credit in foreign currency.

**Result:** Borrowings increased to ₹767 crore in 2015-16; interest outflow remained at existing levels.

#### Average cost of working capital (%)

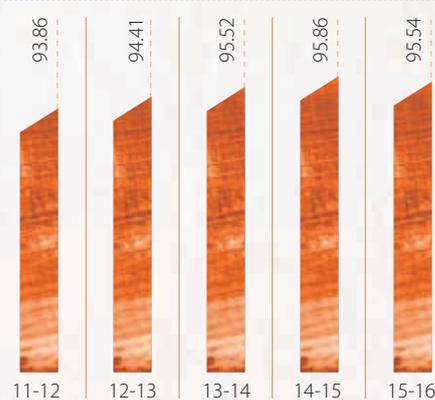

### Competence: Technology contemporariness

**Impact:** Enhanced operating efficiency and superior product attributes

**Strategy:** Consistent investments in cutting-edge technologies (scalable and adaptable to ongoing improvements).

**Result:** Around 54% of spindle capacity was less than a decade old as on 31st March, 2016.

#### Capacity utilisation (%)

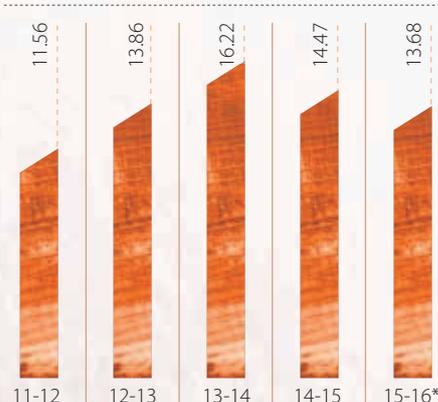

### Competence: Cost leadership

**Impact:** Empowered the Company to moderate operating costs

**Strategy:** The Company moderated selling / administration / marketing / power / debt costs through prudent vendor negotiation

**Result:** The Company reported a profitable CAGR of 14.95%.

# Sutlej. More than just a one-stop yarns provider.

## A specialised yarns provider instead.

Sutlej has extended from being a grey yarn manufacturer to a 'one-stop shop' for every kind of yarn on offer – from natural to man-made – across blends (grey, dyed and mixture) and count ranges (6-50).

Sutlej possesses one of the largest product portfolios of spun-dyed and cotton-blended and cotton mélangé dyed yarns with a presence across 46 countries.

## Overview

Sutlej is one of the largest Indian producers and exporters of value-added synthetic and cotton-blended dyed, cotton mélange spun and synthetic dyed yarns.

The Company's engagement in this space extends beyond scale; it has a passionate involvement in the development of blends and shades that can potentially enhance consumer convenience and marketplace excitement.

Over the years, the Company prudently invested in sectoral and product research. The Company progressively widened its presence across the yarn value chain (cotton to polyester to viscose to acrylic

to modal to lycra to teflon to linen) and strengthened its ability to manufacture multi-fibre (synthetic and natural) yarn across diverse blends (grey, dyed and mixed) and counts (6-50).

The result is that the Company has progressively emerged as a one-stop specialised yarn solutions provider for some of the most demanding market-facing companies within India and the world.

## Capacity

The Company manufactures specialised yarns across three units - Rajasthan Textile Mills in Bhawanimandi (Rajasthan), Birla Textile Mills in Baddi (Himachal

Pradesh) and Chenab Textile Mills in Kathua (Jammu and Kashmir). These units possess advantages in specific product competence, raw material availability, customer dedication and availability of technical professionals.

Over the years, the Company invested periodically in capacity addition, enhancing aggregate spindleage from 155456 in 2005 to 377688 in 2016. Each of the Company's plants possesses adequate economies of scale and capacity to service customer needs (forecast and unexpected). Besides, these units are among the most contemporary; around 54% of the Company's spindleage was less than 10 years old as on 31 March 2016,

### Portfolio

Sutlej provides customers with a single-point solution. This solution comprises the ability to manufacture the complete range of specialised yarns. For instance, the Company is among a handful in India with a demonstrated competence in the manufacture of specialty yarns (lycra, coolmax, modal and tencel yarns, among others). Besides, it is also the largest among five Indian producers of modal yarn (licensed from Lenzing, Austria).

### Product mix

Over the years, the Company has progressively evolved its product mix.

The Company increased the spindleage of cotton blended and cotton mélange dyed yarns – from 23% in its yarns mix in 2011-12 to 29% in 2015-16. This increasing cotton blended and cotton mélange dyed yarn proportion translated into increased divisional profitability and competitiveness.

### Distinctiveness

Sutlej's engagement with customers has extended from make-to-stock to make-to-order. This has helped the Company de-risk from marketplace risks, eliminating the risks of unsold inventory. Besides, this has helped the Company evolve customer engagements from transactions to relationships. We believe that this form of engagement has provided a

basis for capacity expansion, graduating the Company from taking guesses on prospective demand to a point where increased requirements form the basis for prospective capacity increases.

### Quality

Sutlej is not merely a yarn manufacturer; it is widely respected for its ability to provide world-class service (quality, timely delivery, superior price-value, yarn mix) that positions it as a dependable extension of the customer's personality.

The Company's manufacturing units are world-class not merely for sophisticated manufacturing infrastructure; they possess confidence-enhancing certifications (IS/ISO 9001:2008) and quality-testing

- Modified its export portfolio with a growing emphasis on value-added dyed yarns, which helped improve exports by 26.59% from yarn revenues to 46 countries in 2015-16.

### Financial highlights, 2015-16

- Resisted the extensive yarn price erosion arising out of unfavorable market conditions and demand glut; average yarns realisations stood at ₹206 per kilogram (₹219 per kilogram in the previous year)
- Grew yarn production by 28.63% - from

74.74 million kilograms in 2014-15 to 96.14 million kilograms.

- Reported aggregate capacity utilisation of 95.54.
- Strengthened yarn exports 26.59% by value, following an enhanced focus on value-added products. Yarns exports stood at 29.84 million kilograms by volume, a 39.18% increase over the previous year.
- Enhanced domestic volumes 27.19% - from 58.59 million kilograms to 74.52 million kilograms following capacity addition.

### Outlook, 2016-17

The Company selected to increase value-added dyed yarn capacity and volumes from its Bhawanimandi unit, prospectively strengthening realisations. Besides, the Company plans to venture into new territories while evolving its product mix. The Company believes that a wider geographic footprint, larger product offering and improved product mix of value-added dyed yarns should translate into above-market growth in volumes, surpluses and margins.

Sutlej strengthened yarn exports 26.59% by value, following an enhanced focus on value-added products. Yarns exports stood at 29.84 million kilograms by volume, a 39.18% increase over the previous year

# Sutlej. More than just a yarns company. A yarns-cum-home textiles company instead.

## Overview

Over the last few years, Sutlej evolved its personality from specialised yarn manufacture to home textiles.

The Company entered this vertical in 2006, leveraging its understanding of the textile industry. The entry into this business space was validated on the grounds that this would account for a larger share of the existing customer's wallet, graduate the Company from a complete dependence on yarns and enhance margins.

In line with this potential, the Company invested in cutting-edge manufacturing equipment, state-of-the-art German software, full-fledged testing laboratory, wide product range (furnishing fabrics and made-ups) and contemporary designs (based on enduring associations with reputed European studios).

## Capacity

Sutlej is respected for its ability to deliver

customised solutions across diverse designs, blends, colours and finishes from a single integrated unit.

## Operational highlights, FY2015-16

- Strengthened capacity utilisation from 80.02% in 2014-15 to 83.83%.
- Implemented phased capacity expansion; the first phase of 16 looms was commissioned in July 2015.
- Sustained the capacity expansion; following completion, the project is expected to increase to 9.6 million metres per annum by the close of FY 16-17.
- Developed new designs and add-ons in line with evolving market trends, strengthening realisations.

## Financial highlights, 2015-16

- The home textiles business accounted for 3.06% of the Company's revenues (2.56% in 2014-15).

- Revenues grew 45% from ₹48.29 crore in 2014-15 to ₹70.01 crore.
- Exports increased 23.98%; export volumes stood at 1.17 million metres.
- Average realisations improved from ₹160/metre in 2014-15 to ₹170/metre in 2015-16.

## Outlook, 2016-17

Following implementation of the ongoing capacity addition, this business segment is expected to report higher volumes, revenues and surpluses.

### Damanganga Home Textiles

**Location:** Daheli (Gujarat)

**Product:** Home textiles furnishings

**Capacity:** 6 million metres per annum (88 shuttle-less looms)

Following implementation of the ongoing capacity addition, this business segment is expected to report higher volumes, revenues and surpluses.

# Our institutionalised approach to prudent de-risking

## Risk nature: Growing competition

**Probable impact:** Can affect market share and profitability

**Sutlej's response:** The Company addressed this risk through decisive and timely capacity addition on the one hand (especially during the downturn, making the Company's capacities uptrend-ready) and attractive value-addition on the other. This volume-value combination

represents the Company's core strategy to consistently outperform its sectoral growth average.

**Result:** Sutlej has emerged as the largest producer of specialty yarns (cotton mélange and blended dyed yarns) in India coupled with one of the highest sectoral margins (rising trend), validating its strategic direction.

## Risk nature: Industry cyclical

**Probable impact:** Decline in off take, revenues, profits and investments

**Sutlej's response:** Over the years, the Company selected to customise its products around the demanding needs of large and prominent clients (Indian and global). Over

time, these engagements translated into enduring and collaborative relationships.

**Result:** The Company enjoys multi-year relationships with most marquee clients in India (Page Industries, Siyaram's, Donear, Shivalik Print, Arrow, Raymond's and Grasim).

## Risk nature: Inflation

**Probable impact:** An inability to absorb costs, eroding margins.

**Sutlej's response:** The Company addressed this risk through growing economies-of-scale (arising out of an increase in aggregate spindle capacity from 261,736 in 2013-14 to an estimated 412,968 spindles in 2016-17 and enhanced annual home textile production capacity from 5 million metres in 2014-15 to an estimated 9.6 million metres in 2016-17. The Company invested in top-of-the-

line technology that enhanced operating efficiency. Process discipline helped moderate production costs. Centralised large volume resource purchase translated into attractive discounts. Active engagement with bankers resulted in lower debt costs.

**Result:** Raw material costs as a proportion of production value were 58.94% in 2014-15 and 56.17% in 2015-16.

## Risk nature: Inconsistent quality

---

**Probable impact:** Weakening brand; customer attrition

**Sutlej's response:** The Company invested in state-of-the-art equipment (manufacturing and testing) delivering high quality consistency. ₹12.88 crores was invested in R&D expenditure during the decade ending 2015-16. The Company trained workers around a global quality mindset,

enhancing process integrity. The Company invested in global accreditations (IS/ ISO 9001:2008 certification).

**Result:** Uster Technologies AG Switzerland granted the Company the right to use the 'Usterised' trademark; revenues from prominent institutional customers continued to grow.

---

## Risk nature: Volatile currency movements

---

**Probable impact:** Losses in foreign exchange transactions

**Sutlej's response:** The Company followed a policy of immediately encashing currency inflows without leaving open positions or assuming currency risks. The Company enjoyed a significant currency hedge in that it imported

(CIF Value) ₹19.53 crore of materials and exported (FOB Value) ₹573.27 crore of finished products in 2015-16.

**Result:** The Company did not incur currency losses during the year under review.

---

## Risk nature: High debt cost

---

**Probable impact:** Reduced competitiveness

**Sutlej's response:** The credit rating agency CARE upgraded the Company's rating from CARE A+ to CARE AA-, signifying high safety for long-term funds and CARE A1+ for short-term bank facilities. India Ratings and Research Private Limited (FITCH Group) upgraded Sutlej's rating to 'IND AA-' with stable outlook and IND A1+ for short-term bank facilities. These ratings helped

the Company mobilise debt at lower costs. Besides, the Company leveraged its clean non-default record with banks and attractive gearing (1.13 as on 31 March 2016) to moderate its debt cost.

**Result:** The Company's average debt cost declined from a peak of 8.83% in 2012-13 to 7.29% in 2015-16.

# Being **socially responsible**

At Sutlej, we believe that no company can claim to be truly successful until it has successfully addressed the needs of all its stakeholders.

In addition to investing in responsible manufacture, Sutlej has made investments in education, social infrastructure, healthcare and women's empowerment.

The Company has participated in projects for providing of safe drinking water, various programmes under Swachh Bharat Abhiyan, promoting health care services, education, promotion of sports, cultural and social activities, construction of roads and drains among others, for the benefit of the people at large in the area of its activity.

Going ahead, the Company has identified some projects in the state of Rajasthan for its CSR spend under the Mukhyamantri Jal Swavlamban Abhiyan (MJSA) for development of anicut dams for irrigation purposes.

##### 1) Energy Conservation measures taken:

Conservation of energy is an essential step towards overcoming energy crisis, environmental degradation & global competitiveness. The Company is making continuous efforts to conserve energy by affecting process & machinery modifications, implementation of technological advancements, development of newer methods, maintenance, waste heat recovery etc. These measures lead to savings in terms of energy, money and time. Besides continuing the measures taken in earlier years, following additional steps were taken during the year 2015-16 with a view to reduce cost of energy and consequently the cost of production:

##### Spinning

- a) Replacement of 8550 Nos. Ordinary Tube lights with LED lights at a cost of ₹68 lakhs resulting in saving of 2555 kWh/day and ₹49 lakhs per annum.
- b) Replacement of 26 Nos old fans of WCS with energy efficient fans at the cost of ₹144 lakhs resulting in saving of 3725 kWh/day and ₹52 lakhs per annum.

- c) Replacement of 33 sets of old DC motors of Trumac Cards with energy efficient AC motors at a cost of ₹37 lakhs resulting in savings of 799 kWh/day which resulted in saving of ₹10 lakhs per annum.
- d) Replacement of 20 Nos of old motors with energy efficient motors at a cost of ₹9 lakhs resulting in savings of 194 kWh/day and ₹5 lakhs per annum.
- e) Replacement of 60 Nos. old Humidification plant fans and motors with energy efficient fans and motors at a cost of ₹77 lakhs resulting in savings of 1111 kWh/day and ₹30 lakhs per annum.
- f) Replaced 2 Nos. old Compressors with new at a cost of ₹41 lakhs resulting in savings of 600 kWh/day and ₹13 lakhs per annum.
- g) Various other misc measures taken at the cost of ₹7 lakhs resulting in savings of 704 kWh/day and ₹11 lakhs per annum.

##### Home Textiles

- a) Installed Water Chiller Air conditioning system in place of Humidification plant at a cost of ₹128 lakhs which resulted in savings of 324 kWh/day and ₹9 lakhs per annum.
- b) Replacement of 8 Nos. 120 W LED & 70 Nos 30w LED at a cost of ₹3 lakhs which resulted in savings of 34 kWh/day and ₹1 Lakh per annum.
- c) Various other measures taken in earlier years are continuing.

## Spinning

### a) Specific area in which R&D carried out by the company

The Company has well equipped, most modern & state of the art Quality Testing & Development equipments, managed by committed team of highly qualified and experienced professionals. We have latest technological equipments like Uster – 5 Evenness Tester, HVI Spectrum, Tenso Jet-4, Advance Fibre Information System, ie., AFISPRO – LMNT, Classimat – 5 Yarn Fault Classifying System, Lab Expert System all from Uster, Lab Dyeing and Sample Development Systems including Auto Dispenser, Beaker Dyeing machines etc. Besides, Company has full-fledged Yarn Development Centers separately for cotton mélange yarns and synthetic yarns. These centers have machines from Blowroom to Finishing for quick preparation of samples of new yarn. All required tests on Fibre, Yarn and Process material are being carried out. New varieties of yarn are being developed on regular basis having different blends, shades, twists etc. The Company is also having ISO9001-2008, Usterised, Oeko-Tex and GOTS/EKO & Organic Exchange Certificate.

### b) Benefits derived as a result of above R&D

These measures have helped in production of value added new products. Besides various studies and experiments were undertaken to save energy, improve productivity and quality, control costs etc.

### c) Future plan for action

Company is going to set up one more Mélange Development Centre To purchase 1 no. Masdan miniature machine, New Melange development centre, Further Company also intends to install one miniature lab of small sample of Yarn.

## Home Textiles

### a) Specific area in which R&D carried out by the company

The Company has full-fledged design and development centre for development of new designs of Home Textile products having different basic material, colours, weave, textures, design etc as per new trends and requirement of Customers. During the year many new varieties were developed and produced, the centre is manned by professional designers and most sophisticated imported design softwares are being used. Besides Company has all required hardware and software facilities for development of new varieties of Home Textile products.

### b) Benefits derived as a result of above R&D

These measures have helped in production of value added varieties having designs as per latest trends.

### c) Future plan for action

The Company will continue to upgrade existing facilities by addition of new hardware and software and will strengthen soft skills.

## Management discussion and analysis

### Global economic overview

Global economic growth was pegged at 3.1% in 2015, marginally lower than in 2014. It is expected to grow to 3.2% in 2016 and 3.5 in 2017. The slowdown in emerging economies has been attributed to freefalling commodity prices, rebalancing in China, plummeting oil prices and challenging macroeconomic factors. (Source: IMF)

Oil prices saw a marked decline in September 2015, reflecting expectations of increase in production by OPEC members amid a steadily widening skew between global oil production and consumption. Future markets are currently suggesting only modest increases in prices in 2016 and 2017. Prices of other commodities, especially metals, have fallen as well.

The United States remains resilient, supported by improving financial conditions and strengthening housing and labour markets, but with dollar strength weighing all too heavily on manufacturing activity, investment in mining structure and equipment segments has curtailed.

According to World Bank estimates, China grew at an estimated 6.9% in 2015 and is pegged to grow at a rate of 6.7% in 2016 and 6.5% each in 2017 and 2018. Meanwhile, Russia and Brazil are projected to remain in recession in 2016.

Although economies that are dependent on commodity exports may suffer, lower input prices for industry as well as lower fuel prices for households will provide a boost to

aggregate demand and global growth.

As per IMF, global growth is expected to strengthen from 2017 aided by the gradual increase in the global weight of fast-growing countries such as China and India.

India's growth will continue to be driven by private consumption, which has benefited from lower energy prices and higher real incomes. With the revival of sentiment and pickup in industrial activity, a recovery of private investment is expected to further strengthen growth.

### World trade

The World Trade Organization (WTO) trimmed its 2016 global trade growth forecast by 1.1 percentage points, saying a slowdown in China and broad market volatility continued to weigh on growth.

The multilateral trade body has now predicted that global trade would rise by 2.8% in 2016, lower than its previous forecast of a 3.9% expansion announced in September, 2015. This will be the fifth straight year of trade growth below 3%, which is also much lower than the average annual expansion of 5% since 1990. The WTO has estimated global trade growth at 2.8% for 2015. However, global trade could rise 3.6% in 2017, owing to increased demand for imported goods in Asia.

Risks to this forecast are mostly on the downside, including a sharper-than-expected slowing of the Chinese economy, worsening financial market volatility, and

exposure of countries with large foreign debts to sharp exchange rate movements. There is some upside potential if monetary support from the European Central Bank succeeds in generating faster growth in the euro area.

The trade slowdown in India and China is related to the decline in investment growth across emerging market economies, which reflects rebalancing in China but also the sharp scaling down of investment in commodity exporters, particularly those facing difficult macroeconomic conditions. Though India has benefitted from falling global oil prices given its status as a net importer of crude oil, its trade balance has not improved much, given that Indian exports have been contracting for 15 consecutive months.

### Indian economic overview

Gaining momentum, India was positioned as the fastest growing major economy with a five-year high growth rate of 7.6 per cent for the full fiscal 2015-16 on robust manufacturing growth.

Enthused by the impressive numbers for 2015-16, as against 7.2 per cent in previous fiscal, the government expects that the growth rate can go up to 8 per cent in the current fiscal on the back of good monsoon. The industry expressed hope that better monsoon and further reforms will help expand the economy at even a faster pace.

The country has overtaken China since 2014-15, becoming the fastest growing economy in the world. The World Economic Outlook report noted that in India, monetary conditions remain consistent to achieve the inflation target of five per cent in the first half of 2017, although an unfavourable monsoon and an expected public-sector wage increase pose upside risks. However, India Meteorological Department has predicted the monsoon to be above normal in 2016. According to the new concept of Gross Value Added (GVA), farm sector grew at 1.2 per cent in 2015-16 as against contraction of 0.2 per cent in the previous fiscal. The manufacturing sector accelerated to 9.3 per cent, up from 5.5 per cent in the previous fiscal. However, the mining and quarrying segment recorded a growth of 7.4 per cent in FY2016, down from 10.8 per cent in the previous fiscal.

In the current year, the rupee values of both exports and imports (of goods and services) are projected to decline; the former on account of the sluggish global demand and the latter due to steep decline in international crude oil and commodity prices. In the wake of a reined in inflation and improved GDP growth, the Reserve Bank of India has reduced the repo rate twice during the year to 6.5%. The CPI inflation rate has eased to 4.8% in March' 2016 as compared to 5.3% in March' 2015 along with a cumulative growth of 2% in Industrial Production during FY16 over FY15 as per Index of Industrial Production (IIP) data.

However, the rural economy did not perform well this year because of the abysmally low rainfall. Also, the absence of any major infrastructural initiatives has stifled economic growth. Hence, a good monsoon would increase rural consumption

by dampening price pressures and opening up further space for monetary easing. Stressed farm incomes have led to slump in rural wages. Back to back droughts has lowered incomes of farmers and labourers. Lower agricultural growth means fall in rural demand for goods. It has also caused textile output to fall by 0.6%.

The Central Government has taken a number of steps to attract domestic and foreign investments with strong focus towards promoting "Make in India" policy and building world class infrastructure. Additional structural reforms to address legacy impediments to growth like GST implementation, Ujjwala scheme for providing LPG below BPL, implementation of the recommendations of the 7th pay commission, strengthening of the Banking Sector, education and revised policy on 'Housing for all' etc could help sustain the strong pace of growth in the coming years. Innovation in product, design, brand, channels along with re-engineered business processes will help companies be ready for future growth opportunities. Once embraced, they can quickly outsmart competition.

#### **India trade**

India's rank remained unchanged at 19th in 2015 in the list of top 30 merchandise exporters of the world, according to a WTO report. China continues to hold the top position in the list.

China registered the highest merchandise trade by value in 2015 with USD 2,275 billion worth of exports. Total world merchandise exports were USD 16,482 billion whereas imports were USD 16,766 billion

India's exports dipped by 17.2 per cent to USD 267 billion last year while imports aggregated at USD 392 billion. In 2014,

the countries' outbound and inbound shipments aggregated at USD 317 billion and USD 460 billion respectively.

Slowdown in the global demand hit India's exports in 2015 and even in the current year the exports are in the negative zone.

However, India's ranking among top importers slipped by one notch to 13th in 2015, from 12th in previous year. In imports, the US topped the list.

#### **An overview of the global textile and apparel industry**

Global nominal sales of textiles and clothing declined by 4% in 2015 crippled by unusually low commodity prices and currency depreciations, particularly in the emerging markets. As these economies account for about 80% of the global output, poor economic prospects in Brazil and Russia as well as the Chinese economic restructuring will continue to bear down on the sector. It is expected that gross output would decrease by 1% in 2016. However, the financial health of textile and clothing companies has improved between 2011 and 2014: net debt now represents only 53% of the equity. This improvement however must be taken with a grain of salt, as it is mostly attributable to investments drying up rather than a strengthening equity. As such, capex investments are forecast to decrease by 1%.

Long-term demand is predicted to stay resilient owing to the rising middle-class incomes in the emerging markets and supply costs steadying owing to a greater dependence on man-made fibres, whose prices are less volatile than those of cotton or wool. A decline of 15% in cotton prices in 2015 didn't prevent fabric producers to be swayed by man-made fibres. On the whole, profitability was weakened by volatile raw material prices and rising wages. Changing consumer behaviours forced textile and

apparel companies to become more flexible.

Looking forward, domestic demand will be fueled by population growth (+500 million inhabitants by 2020) and higher incomes that will substantially increase household purchasing powers. GDP per capita is expected to keep rising, increasing by +4% annually between 2015 and 2020. (Source: <http://www.eulerhermes.com/mediacenter/Lists/mediacenter-documents/Textile-Global-Report.pdf>)

### American textile industry

In 2015, the value of American shipments (man-made fibres and filaments, textile, and apparels) totaled \$76 billion – increasing by almost 14% since 2009. American exports of fibres, yarns, and fabrics totaled \$21.6 billion alone in 2015, making America the fourth largest exporter of fibre and textile products in the world.

Growing capital expenditures also are a clear sign of the textile industry's positive outlook. The textile and apparel sector spent \$2 billion on capex investments in 2014. Capacity utilisation for textile mills improved by 39% since 2009 as compared to an increase of 19.5% for textile products mills and 3% for apparel. Capacity utilisation for textile mills outclassed the overall American manufacturing sector output during three out of the four quarters of 2015. This demonstrates that the textile industry is no longer a negative outlier within the American manufacturing sector.

Wrapping up, the fundamentals for the industry are sound. That does not mean, however, that the industry is bereft of challenges. The sector has begun to see changes in demand as the global economic struggles continue to exacerbate. Thus, dedicated strategies need to be codified for weathering difficult market conditions.

### Chinese textile industry

China's textile exports fell by 5% (to \$286.8 billion) for the first time in six years in 2015, dragged down by sharp depreciations in the values of the yen and euro, rising domestic labour costs as well as an increase in overseas investments.

Also the decreasing quality of domestic cotton has forced enterprises to largely import cotton from India and Pakistan. Additionally, weak domestic consumption, shortage of orders, increasing manpower and energy costs, and stricter environmental controls have left Chinese textile companies with their backs against the wall.

In such a backdrop, the Chinese textile industry is looking to transform itself by leveraging new-age technologies and fine-tuning business models so as to encompass the whole value chain – from cotton picking to spinning, weaving and dyeing.

With China undergoing an economic transformation, cutting-edge facilities are mushrooming in the developed coastal regions to replace labour-intensive textile setups. Many labour-intensive Chinese industries had already shifted to South East Asian countries as the labour costs there were 4-5x cheaper. ### European textile industry

Overall, the European textile and clothing industry increased sales by 1% during the first nine months of 2015 according to Euratex. Clothing (+1.5%) fared better than textiles (+0.5%). Retail sales, meanwhile, saw an increase of 2.7%. However, the figures varied from country to country. Thus, for example, sales declined in Bulgaria, Finland,

Austria, Germany and the Netherlands while the other EU countries saw an increase.

While exports outside the EU28 increased, imports more than tripled. Imports from outside the EU28 surged in 2015 with an overall increase of 10.2%. The chief beneficiaries included: Bangladesh (+24%), Pakistan (+19%), China (+9%) and India (+8%). Exports outside the EU28 rose slightly less for imports (+3.8%). Sales progressed in particular to the US (+21%), Hong Kong (+18%) and China (+12%). However, they declined significantly for Russia (-29%). ### Indian textile industry

The Indian textile industry is set for strong growth, buoyed by both strong domestic consumption as well as export demand. Abundant availability of raw materials such as cotton, wool, silk and jute and a skilled workforce has allowed India to cement its identity as a vital sourcing hub. With the emergence of 'Smart Cities', improvement in technology and a substantial development in international trade have brightened prospects for the vertical. As such, the Indian textile industry, currently estimated at around US\$ 108 billion, is expected to go past the US\$ 223 billion-mark by 2021. The industry is the second largest employer after agriculture, providing employment to over 45 million people directly. (Source: TEXPROCIL)

The close linkage of the textile industry to agriculture (for raw materials such as cotton) makes the Indian textiles sector unique in comparison to those of other countries. The textile industry (including dyed and printed) attracted FDI worth US\$ 1.77 billion during April 2000 and September 2015.

**Cotton industry**

**Global scenario**

Global harvested area in 2015-16 was estimated at 76.4 hectares million acres, 7.7 million acres less than the previous season. China’s cotton production was projected at 23.8 million bales, nearly 21% below the previous year. This marked the third consecutive annual decrease as area under cultivation declined for the fourth year straight. Australia’s cotton production in 2015-16 rebounded by 9% to reach 2.5 million bales.

Global cotton trade stood at 34.9 million bales, 500,000 bales lower than the previous cotton year and the lowest since 2008-09. The reduction was mainly due to reduced import demands in China – a decline of more than three million bales. However, this was

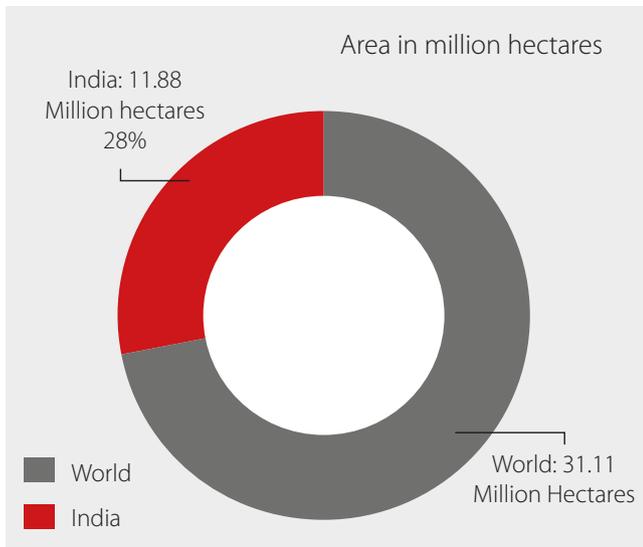

more or less offset by increased imports in other countries like Bangladesh, Vietnam, Turkey and Pakistan. Bangladesh emerged as the leading cotton importer in 2015-16 (5.75 million bales). **Indian scenario**

India is the 2nd largest producer of cotton in the world accounting for about 27% of the world cotton production. It has the distinction of having the largest area under cotton cultivation in the world ranging between 11.9 million hectares to 12.8 million hectares and constituting about 38% to 41% of the world area under cotton cultivation. The yield per hectare (ranging from 504 kilograms to 566 kilograms per hectare) is however still lower against the world average

(of about 701 kilograms to 766 kilograms per hectare).

The cotton season 2015-16 witnessed a reduction in the production as well as consumption of cotton in the country. The decline in consumption was somewhat offset by the decrease in cotton production. Crop damage in the Northern India due to the whitefly attacks remained a cause of concern. The Cotton Advisory Board projected cotton production during 2015-16 at 352 lac bales of 170 kilograms each, declining from 380 lac bales in 2014-15. The area under cultivation also declined from 128.19 lac hectares to 118.81 lac hectares. Cotton consumption witnessed a decline from 304.83 lac bales to 300 lac bales. However, the decadal consumption almost doubled from 154 lac bales in 2002-03. (Source: <http://cotcorp.gov.in>)

## Exports

The report of the Working Group constituted by the Planning Commission on boosting India's manufacturing exports during 12th Five Year Plan (2012-17) period envisages India's exports of textiles and clothing to reach US\$ 64.41 billion by the March 2017. The textiles industry accounts for a 13% share of the country's total exports revenues. India is major exporting country as far as the textile sector is concerned.

## Home textiles

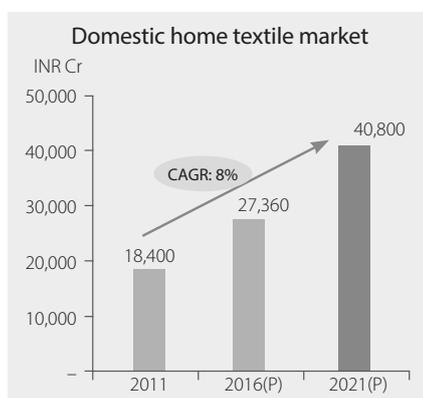

India is globally recognised for its wide variety and exquisite designs in the realms of home textiles and furnishing fabrics. A booming affordable housing sector and a visible growth in employment opportunities have enhanced disposable incomes in the hands of young consumers. The result: demand for

home textile products grew over 40% over the last five years.

India's home textile industry is expected to expand at a CAGR of 8% to reach ₹40,800 crore in 2021 from ₹27,360 crore in 2016 supported by growing household incomes, increasing population and increasing demand from housing, hospitality and

healthcare sectors.

The per capita consumption of home textiles abysmally low in India compared even with developing markets like Brazil and China. Annual per capita consumption of home textiles is about US\$3 (About ₹150) in India compared to world average of US \$23 (About ₹1200)

## SWOT analysis

### Strengths

- The apparel industry is one of the largest foreign currency earners and accounts for 11% of the country's total export revenues.
- Abundant raw material availability helps control costs and reduces lead-times across operations.
- Low labour charges means that the manufacturing cost rarely spins out of control.
- India is one of the largest producers of cotton in the world and is also enjoys abundant supplies of polyester, silk, viscose, among others.
- The Indian garment industry is self-sufficient in terms of manufacturing facilities, apparels produced, quantity and quality of output, cost, and requirement for fabrics, among others

### Weaknesses

- Knitted garments manufacturing has remained as an extremely fragmented industry. Global players would prefer to source their entire requirement from two or three vendors and the Indian garment units find it difficult to meet the capacity requirements.
- Lack of technological development affects productivity and other activities across the value chain.
- The Indian industry falls short on the economies-of-scale front therefore unable to compete with nations like China.

### Opportunities

- The prospects of the Indian textile industry are bright in the development and diversification of technical textiles.
- A shift in favour of branded readymade garments is being observed with more malls emerging and retail industries providing opportunities to segments like handicrafts and apparels.
- An upsurge in purchasing power and

disposable incomes.

- Large, potential domestic and international markets are focusing on product development and diversification to cater to global needs.

- Greater FDI opportunities are available with elimination of quotas.

### Threats

- Competition from other countries, especially China, Cambodia, Indonesia.

- TPP and other FTA signed and under implementation

- Low-cost players like Pakistan and Bangladesh may hinder India's exports prospects.

- Another disadvantage is India's geographical distance from major global markets of US, Europe and Japan in contrast to its rivals like Mexico, China, among others which are comparatively nearer. This results in high shipping expenses and lengthy lead-times.

## Drivers of growth

**Demographic factors:** Rising per capita incomes, a youthful population, and a predilection for branded products are expected to boost demand.

**Policy support:** The textile industry, being one of the most significant sectors in the Indian economy, has seen a number of decisive initiatives being taken to make it more competitive.

**Changing lifestyles:** Changing lifestyles for quality products will fuel the need for quality apparel, boosting production and offtake.

**Retail boom:** With consumerism and disposable incomes on the rise, the retail sector has experienced rapid growth in the past decade, with many global apparel players coming in the Indian market.

**Growing urbanisation:** According to World

Bank, urban centres are home to 32% of the total population of India. The accelerating urbanisation will catalyse the growth of the textile industry.

**Empowered women:** According to 2013 World Bank data, female labour force participation in India stood at a meagre 27%. However, this is expected to improve as more women are venturing out beyond home to shopping complexes, schools or offices to socialise and work. The women's apparel market, which has been significantly smaller than men's, (as traditionally, women's wardrobes have been limited to home wear and items for special occasions), is thus set to lend a boost the textiles and apparels industry in India

**Skill development:** As the textiles industry grew in India, a large number of textiles institutes have been founded across the country teaching mainly conventional technologies. Being a skilled industry the Government has also undertaken Skill Development Mission to meet the workforce requirement of the industry.

**Digital revolution:** The proliferation of smartphones, laptops and tablets that support internet usage, have resulted in an unprecedented growth e-commerce. As incomes rise and lifestyles change, e-commerce has provided consumers with easier, faster and convenient shopping experiences.

**Cost advantage:** Exporters are gaining from strong global demand, capacity built over years has led to low cost of production per unit in India's textile industry; this has lent a strong competitive advantage to the country's textile exporters relative to key global peers. The sector has also witnessed increasing outsourcing over the years as Indian players moved up the value chain from being mere converters to vendor partners of global retail giants.

## Governmental initiatives

### Budgetary allocation to the Ministry of Textiles:

The Ministry has received ₹4,594.82 crore for the upcoming financial year to support its various schemes covering the entire textile industry. In 2015-16, the budgetary allocation for the ministry was ₹4,326.44 crore. The flagship TUFs Scheme has been allocated ₹1,480 crore for FY 2016-17 compared to ₹1,510.79 crore in FY 2015-16.

### Consumption of textiles and apparels

Large allocations towards the rural and agricultural sectors will stimulate demand and in turn improve textile and apparel consumption. The domestic textile sector is anticipated to grow significantly, driven by increased consumption from rural and suburban areas in the next couple of years.

### Irrigation

The Central Government aims to double farm incomes by 2020 thereby making it a more lucrative activity. The proposed

schemes for organic farming should lend a boost to organic farming of cotton. Moreover, to improve farm productivity, the Central Government has kickstarted numerous irrigation projects across India.

### Labour

Since its launch, the National Skill Development Mission has imparted training to 76 lac youth. During FY16-17, 1,500 multi-skill training institutes will be set up across the country. A corpus of ₹1,700 crore has been set aside for this. The Integrated Skill Development scheme targets to provide 15 lac additional skilled workers to the textile industry by 2017.

### Subsidies

With a view to support the 'Make in India' initiative, the Central Government launched ATUFs (Amended Technology Upgradation Fund Scheme) in place of the existing RRTUFs (Revised Restructure Technology Upgradation Fund Scheme), for technology upgradation of textiles industry with one time capital subsidy

for eligible machinery. For the sub-sectors of apparel, garment and technical textiles, up to 15% subsidy would be provided on capital investment, subject to a ceiling of ₹30 crore over a period of five years.

The remaining sub-sectors would be eligible for subsidy at a rate of 10%, subject to a ceiling of ₹20 crore on similar lines. A budgetary provision of ₹17,822 crore has been approved towards TUFs scheme for the next seven years (2015-16 to 2021-22); this scheme is expected to attract an investment of ₹1 lac crore and generate employment for 30 lac people.

### Infrastructure

The Integrated Textile Park scheme will address the infrastructural constraints of the textile sector. The Central Government will provide assistance up to 40% of the project cost subject to a ceiling of ₹40 crore for common infrastructure and facilities. 24 new parks have been sanctioned in FY2014-15 and FY2015-16.

Large allocations towards the rural and agricultural sectors will stimulate demand and in turn improve textile and apparel consumption.

Government supported textile industry by allocating:

• Handloom development programmes	710.00

## Outlook

In 2016-17, global cotton area is expected to expand by 1% to 31.3 million hectares. From December 2015 through February 2016, the prices for competing crops during the same period have fallen, making cotton more competitive this year compared to last. World cotton production in 2016-17 is projected to increase by 4%, to just below 23 million tonnes, as the world average yield is anticipated to improve by 4% to 732 kilograms per hectare. In 2016-17, India's area is forecast up 4% to 12.4 million hectares due to improved domestic cotton prices in 2015-16.

In March, the Chinese Government announced a reduced target price for Xinjiang of 18,600 yuan/tonne. Subsequently, the area is likely to contract by 10% to 3.1 million hectares and production to decrease to 4.6 million tonnes. Cotton area in the US is projected to increase by 2% to 3.3 million hectares and production by 9% to 3.1 million tons. After production plummeted in 2015-16, cotton production in Pakistan is expected to jump by 35% to 2.1 million tonnes.

After declining by 2% in 2015-16, global cotton consumption is anticipated to remain stable at 23.9 million tonnes. Consumption in China is projected to decrease by 5% to 6.8 million tonnes due to increasing wages, high domestic cotton prices, and low polyester prices. In 2016-17, Vietnam's cotton consumption is forecast to rise 16% to 1.3 million tonnes, making it the fifth largest consumer. Consumption in Bangladesh, the sixth largest, could increase by 10% to 1.2 million tonnes. Similarly, India's consumption is projected to rise by 4% to 5.5 million tonnes and Pakistan's by 1% to 2.2 million tonnes (Source: <https://www.icac.org>)

#### **BOARD MEMBERSHIP CRITERIA**

The nomination and Remuneration Committee works with the entire Board to determine the appropriate characteristics, skills and experience required for the Board as a whole and for individual members. Board members are expected to possess the required qualification, integrity, expertise and experience for the position. They should also possess deep expertise and insights in sectors/ areas relevant to the company, and ability to contribute to Company's growth.

#### **BOARD INDEPENDENCE**

Our definition of 'Independence' of Directors is derived from Regulation 16(b) of the Listing Regulations, 2015 and Section 149(6) of the Companies Act 2013. The Board comprises more than the required number of Independent Directors. Due to promulgation of Section 149 of the Companies Act, 2013 and Regulation 25 of the Listing Regulations, 2015, which came into force from 1st December, 2015, Independent Directors has to be appointed for a fixed term of not exceeding five years and they shall not be liable to retire by rotation. Therefore, the Company has appointed/re-appointed/regularised all the existing independent directors for a term of five consecutive years in order to comply with the aforesaid provisions. Based on the confirmation / disclosures received from the Directors and on evaluation of the relationships disclosed, all Non-Executive Directors are Independent.

As required under the Act, the Independent Directors held their separate meeting to assess the functioning of the Board and to

evaluate the performance of the Chairman and the executive Directors.

#### **FAMILIARISATION OF BOARD MEMBERS**

The provision of an appropriate induction program for the Directors and ongoing training for existing Directors is a major contributor to the maintenance of high Corporate Governance standards of the Company. All new non-executive directors inducted to the Board are introduced to our Company culture through appropriate orientation sessions. Presentations are made by various executive directors and senior management to provide an overview of the Company's operations and to familiarize the new non-executive directors with our operations. They are also introduced to our organization structure, our products, board procedures, matters reserved for Board, and our major risk and risk management strategy. The Independent Directors, from time to time, request management to provide detailed understanding of any specific project, activity or process of the Company. The management provides such information and training either at the Board of Directors or otherwise.

The induction process is designed to:

- a. build an understanding of Sutlej, its businesses and the markets and regulatory environment in which it operates;
- b. provide an appreciation of the role and responsibilities of the Director;
- c. fully equip Directors to perform their role on the Board effectively; and
- d. develop understanding of the Company's people and its key stakeholder relationships.

The policy is available on the website of the Company at the weblink: <http://sutlejttextiles.com/pdf/policy/FamiliarisationProgramme.pdf>

#### **BOARD MEETINGS AND PROCEDURE**

## BOARD SUPPORT

The Company Secretary is responsible for collation, review and distribution of all papers submitted to the Board and Committees thereof for consideration. The Company Secretary is also responsible for preparation of the Agenda and convening of the Board and Committee meetings. The Company Secretary attends all the meetings of the Board and its Committees, advises/ assures the Board on Compliance and Governance principles and ensures appropriate recording of minutes of the Meetings.

## INFORMATION TO THE BOARD

The internal guidelines for Board / Board Committee meetings facilitate the decision making process at the meetings of the Board/ Committees in an informed and efficient manner. Board Meetings are governed by structured agenda. All major agenda items are backed by comprehensive background information to enable the Board to take informed decisions. The Company Secretary in consultation with the Senior Management prepares the detailed agenda for the meetings.

Agenda papers and Notes on Agenda are circulated to the Directors, in advance, in the defined Agenda format. All material information are circulated along with Agenda papers for facilitating meaningful and focused discussions at the meeting. Where it is not

practicable to attach any document to the Agenda, the same is tabled before the meeting with specific reference to this effect in the Agenda. In special and exceptional circumstances, additional or supplementary item(s) on the Agenda are permitted. Frequent and detailed deliberation on the agenda provides the strategic roadmap for the future growth of the Company.

A detailed agenda folder is sent to each director in advance of the Board Meetings, covering inter alia, the required information as enumerated Part A of Schedule II to Regulation 17(7) of the Listing Regulations, 2015. As a policy, all major decisions involving allocation and deployment of funds, investments and capital expenditure, in addition to matters which statutorily require the approval of the Board are placed before the Board for its consideration and directions.

Inter alia, the following information, as may be applicable and required, is provided to the Board as a part of the agenda papers:

- Annual operating plans and revenue budgets
- Capital budget expenditures
- Quarterly, half yearly and annual results of the Company
- Minutes of the Audit and other Committees of the Board
- Information relating to recruitment and remuneration of senior level officers just below the Board level.

- Materially important legal or taxation issues
- Status of financial obligations to and by the Company
- Any significant development in human resources or industrial relations
- Details of risk exposure and steps taken by management to limit or restrain the risk
- Compliance status with any regulatory, statutory or Listing Regulations, 2015 related requirements or in relation to any shareholder services

The Board is also given presentation covering industry environment, project implementation, project financing and operations of the company. Senior executives are invited to provide additional inputs at the Board meeting, as and when necessary.

The important decisions taken at the Board / Committee meetings are communicated to concerned departments promptly. Action taken report on the decisions taken at the meeting(s) is placed at the immediately succeeding meeting of the Board / Committee for noting by the Board / Committee.

Board periodically reviews compliance reports of all laws applicable to the Company, as well as steps taken by the Company to rectify instances of non-compliance, if any.

**J. INVESTOR SAFEGUARDS AND OTHER INFORMATION****(i) Dematerialization of Shares**

Shareholders are requested to convert their physical holdings to demat/electronic form through any of the registered Depository Participants (DPs) to avoid the hassles involved in dealing in physical shares such as possibility of loss, mutilation, etc and also

to ensure safe and speedy transaction in respect of the shares held.

**(ii) National Electronic Clearing Services (NECS)/ Electronic Clearing Services (ECS) mandate**

NECS/ECS facility ensures timely remittance of dividend without possible loss/delay in postal transit. Shareholders/Members holding shares in electronic form may register their NECS/ECS details with the respective DPs and Shareholders/Members holding shares in physical form may register their NECS/ECS details with Registrar and Share Transfer Agents to receive dividends, if declared, via the NECS/ECS mode.

**(iii) Timely Encashment of Dividends**

In respect of the shareholders who have either not opted for NECS/ECS mandate or do not have such a facility with their banker, are requested to encash dividends promptly to avoid the inconvenience of writing to Company's Share Transfer Agents thereafter for revalidation of dividend warrants and failing their encashment for a period of seven years, they stand to lose the right to claim such dividends owing to transfer of unclaimed dividends beyond seven years to Investor Education and Protection Fund.

**(iv) Transfer of unclaimed dividend to Investor Education and Protection Fund (IEPF)**

Under the Companies Act, 2013, dividends which remain unclaimed for a period of seven years are required to be transferred to Investor Education and Protection Fund (IEPF) administered by the Central Government. Those Standards require that we comply with ethical requirements and plan and perform the

audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

### Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2016, and its profit and its cash flows for the year ended on that date.

### Other Matter

We did not audit the financial statements of Kathua and Baddi Units included in the financial statements of the Company whose financial statements reflect total assets of Rs.105262.85 lakhs as at 31st March, 2016 and total revenues of Rs.159807.05 lakhs for the year ended on that date, as considered in the financial statements. The financial statements of the Kathua and Baddi units have been audited by the branch auditor whose reports have been furnished to us, and our opinion in so far as it relates to the amounts and disclosures included in respect of the branches, is based solely on the report of branch auditor.

Our opinion is not modified in respect of this matter.

### Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ('the Order'), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013 we give in the Annexure A, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143 (3) of the Act, we report that:
  - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
  - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books and proper returns adequate for the purposes of our audit have been received from branches not visited by us.
  - (c) The reports on the accounts of the Kathua and Baddi units of the Company audited under Section 143 (8) of the Act by branch auditor have been sent to us and have been properly dealt with by us in preparing this report.
  - (d) The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account and with the financial statements received from the Kathua and Baddi units not visited by us.
  - (e) In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
  - (f) On the basis of the written representations received from the directors as on 31st March, 2016 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2016 from being appointed as a director in terms of Section 164 (2) of the Act.
  - (g) With respect to the adequacy of the internal financial control over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
  - (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
    - i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements – Refer Note 7 and 18A(1&2) to the financial statements;

## Annexure B

### **Report on the Internal Financial controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls over financial reporting of Sutlej Textiles and Industries Limited as of March 31, 2016 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

#### **Management's Responsibility for Internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over the financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on the company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "guidance Note") and the standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those standards and the Guidance Note require that we comply with ethical requirements of and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and

maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exist, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

#### **Meaning of Internal Financial Controls over Financial Reporting**

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorization of management and directors of the company ; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the company's assets that could have a material effect on the financial statements.

### **Inherent Limitations of Internal Financial Controls over Financial Reporting**

Because of the inherent limitations of Internal Financial Controls Over Financial Reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial controls over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **Opinion**

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal

control over the financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

## Notes annexed to and forming part of Balance Sheet and Statement of Profit and Loss

### Note 30 : Summary of significant accounting policies and other notes on accounts:

#### Note 30.01: Nature of Operations

The Company is a manufacturer of Synthetic Staple Fibres Yarn, Man made Fibres blended yarn & Cotton Yarn and Fabrics. It has Three spinning units viz. Rajasthan Textile Mills, Bhawanimandi (Raj), Chenab Textile Mills, Kathua (J & K) & Birla Textile Mills, Baddi (H.P.) (acquired w.e.f. 1st April, 2015), one Home Textiles unit viz. Damanganga Home Textiles and one processing unit viz. Damanganga Fabrics, at Village Daheli, near Bhilad (Gujarat).

#### Note 30.02: Summary of significant accounting policies

##### (A) Basis of Accounting

The financial statements have been prepared to comply in all material respects with the Accounting Standard notified under section 133 and the relevant provisions of the Companies Act, 2013. The financial statements have been prepared under the historical cost convention on accrual basis except in case of interest on overdue debts from customers and certain incentives on procurement of raw materials which are accounted for on receipt basis on account of uncertainties.

##### (B) Use of Estimates

The preparation of financial statements requires estimates and assumptions to be made that affect the reported amount of assets and liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates are recognised in the period in which the results are known/ materialised.

##### (C) Classification of Assets and Liabilities as Current and Non Current

All assets and liabilities are classified as current or non-current as per the Company's normal operating cycle and other criteria set out in Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, 12 months has been considered by the Company for the purpose of current/ non-current classification of assets and liabilities.

##### (D) Fixed Assets

Fixed assets are stated at cost less accumulated depreciation and impairment losses, if any. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use. The carrying amounts are reviewed at each balance sheet date, if there is any indication of impairment based on internal/external factors. An impairment loss is recognised wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is greater of the assets net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value at the weighted average cost of capital.

##### (E) Expenditure on new projects , substantial expansion and during construction period

Expenditure directly relating to construction activity is capitalised. Indirect expenditure incurred during construction period is capitalised as part of the indirect construction cost to the extent to which the expenditure is indirectly related to construction or is incidental thereto. Other indirect expenditure incurred during the construction period, which is not related to the construction activity nor is incidental thereto is charged to the Statement of Profit & Loss. Income earned during construction period is deducted from the total of the indirect expenditure.

All direct capital expenditure on expansion is capitalised. As regards indirect expenditure on expansion, only that portion is capitalised which represents the marginal increase in such expenditure as a result of capital expansion. Both direct and indirect expenditure are capitalised only if they increase the value of the asset beyond its originally assessed standard of performance.

Expenditure during construction/installation period is included under capital work-in-progress and the same is allocated to respective fixed assets on the completion of its construction.

##### (F) Investments

Non Current (Long term) investments are stated at cost . The Company provides for diminution other than temporary in the value of Non Current (Long term) investments. Current investments are valued at lower of cost or fair value.

## Notes annexed to and forming part of Balance Sheet and Statement of Profit and Loss

### Note 30 : Summary of significant accounting policies and other notes on accounts: (contd.)

#### G) Inventories

- i) Inventories are valued as follows:

Raw materials, stores and spares	Lower of cost and net realisable value. Cost is determined on a weighted average basis. Materials and other items held for use in the production of inventories are not written down below costs, if finished goods in which they will be incorporated are expected to be sold at or above cost.
Work-in-progress, finished goods and traded goods	Lower of cost and net realisable value. Cost includes direct materials, labour and a proportion of manufacturing overheads. Cost of finished goods includes excise duty, wherever applicable. Also refer Note No. 30.02 (I) (iii) herein below.
Waste	At net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and to make the sale.

- ii) Work-in-progress, finished goods and traded goods have been valued as per the principles and basis consistently followed.
- iii) Provision for obsolete/ old inventories is made, wherever required.
- iv) Inter unit transfers of material for further processing is being made at market rate prevailing at the time of such transfers and inventories of such "transfers" could not be identified separately. Therefore for the purpose of determining weighted average cost, transfer price has been considered. In the opinion of the management such valuation have no material impact on inventory valuation and such stock at the year end are shown as part of raw materials inventory.
- v) In view of substantially large number of items in work- in- progress, it is not feasible to maintain the status of movement of each item at shop floor on perpetual basis. The Company, however, physically verifies such stocks at the end of every month/ quarter and valuation is made on the basis of such physical verification.

#### (H) Provisions

A provision is recognised when an enterprise has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions except those disclosed elsewhere in the notes to the financial statements, are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

#### (I) Revenue Recognition

- (i) Revenue from sales is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer.
- (ii) Revenue (other than sale) is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured.
- (iii) Revenue from process of fabrics are recognised on delivery of the goods to customers/when the goods are ready for delivery. When goods are partly processed, the expenses so incurred is shown as work- in- progress.
- (iv) Interest other than interest on overdue debts from customers, is recognised on time proportion basis.

#### (J) Government Grants and Subsidies

Grants and subsidies from the government are recognised when there is reasonable assurance that the grant/ subsidy will be received and all attaching conditions will be complied with. When the grant or subsidy relates to an expense item, it is recognised as income or deducted from the relevant expense in the year of sanction of grant or subsidy.

Government subsidies relating to depreciable fixed assets are treated as deferred income as per Accounting Standard - 12, which are recognised in Statement of Profit and Loss over the useful life of the respective assets.

## Notes annexed to and forming part of Balance Sheet and Statement of Profit and Loss

### Note 30 : Summary of significant accounting policies and other notes on accounts: (contd.)

#### (K) Excise Duty on job work

Excise duty is paid on clearance of processed fabrics. No provision for excise duty is made in the accounts for fabrics processed (for work done on job basis for outside parties) and lying in factory premises at the end of the year as the same is recoverable from the parties.

#### (L) Retirement and other employee benefits

- (i) Retirement benefits in the form of provident fund and superannuation scheme, which are defined contribution plans, are charged to the Statement of Profit and Loss of the year when the contributions to the respective funds are due.
- (ii) Gratuity and leave encashment which are defined benefits, are accrued based on actuarial valuation at the balance sheet date carried out by an independent actuary using the projected unit credit method.
- (iii) Gratuity liability is being contributed to the gratuity fund formed by the Company.

#### (M) Foreign Currencies

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction. Monetary items related to foreign currencies transactions are restated at year end exchange rates. All exchange differences arising from such conversion including gain or loss on cancellation of foreign currency forward covers are included in the Statement of Profit and Loss. Premium/Discount on forward contracts covered by AS-11 is recognised over the length of the contract.

#### (N) Derivatives

Outstanding derivatives contracts, other than those covered under AS-11, at the year end are marked to market rate, and loss, if any, are accounted for in the Statement of Profit and Loss. As prudent accounting policy, gain on marked to market at the end of year are not accounted for.

#### (O) Borrowing Costs

Borrowing costs attributable to the acquisition or construction of qualifying fixed assets, are capitalised as part of the cost of such assets upto the date of commencement of commercial production/put to use of plant. Other borrowing costs are charged to revenue.

#### (P) Depreciation

Depreciation on fixed assets installed upto 31.3.1992 provided at written down value method and depreciation on assets installed on or after 1.4.1992 has been charged at straight line method with reference to the economic useful life of its fixed assets as prescribed in Schedule II to the Companies Act, 2013 or re-assessed by the Company on technically assessed, as given below. As per the assessment made by the management, fixed assets (other than building) does not comprises any significant components with different useful life.

		Useful lives as per technical certificate
1	Non Factory Buildings	58 years
2	Plant & Machinery ( Single Shift basis)	18 years & 4 months / 20 years
3	Furniture and fixture	5-10 years

Depreciation on additions due to machinery spares is provided retrospectively from the date the related assets are put to use. Depreciation on additions to or on disposal of assets is calculated on pro-rata basis. Leasehold land is being amortised over the period of lease tenure. Additions on rented premises are being amortised over the period of rent agreement. Software and designing rights being intangible assets are depreciated over five years. Individual assets costing below ₹5000 are fully depreciated in the year of purchase as these assets have no significant useful life.

#### (Q) Taxation

Current tax is measured at the amount expected to be paid to the revenue authorities, using the applicable tax rates and laws. Deferred tax for timing differences between the book and taxable Income for the year is accounted for using the tax rates and laws that have been enacted or substantively enacted as of the balance sheet date. Deferred tax assets arising from temporary timing differences are recognised to the extent there is reasonable certainty that the assets can be realised in future and the same is reviewed at each Balance Sheet date.

## Notes annexed to and forming part of Balance Sheet and Statement of Profit and Loss

### Note 30 : Summary of significant accounting policies and other notes on accounts: (contd.)

Minimum alternate tax (MAT) credit is recognized as an asset when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. In the year in which the MAT credit becomes eligible to be recognized as an asset in accordance with the recommendations contained in Guidance Note issued by Institute of Chartered Accountants of India, the said asset is created by way of a credit to the Statement of Profit and Loss and shown as MAT Credit Entitlements. The Company reviews the same at each balance sheet date and written down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that Company will pay normal Income Tax during the specified period.

#### (R) Segment Reporting

The accounting policies adopted for segment reporting are in conformity with the accounting policies adopted for the Company. Primary Segments are identified based on the nature of products and services, the different risks and returns and the internal business reporting system. Revenue, Expense, Assets and Liabilities, which relate to the Company as a whole and could not be allocated to segments on a reasonable basis, have been classified as unallocated.

Secondary segment is identified based on geography by location of customers i.e. in India and outside India.

Inter-segment revenue have been accounted for based on the transaction price agreed to between the segments, which is primarily market based.

Results of the other segment have not been shown separately as the same is not material.

#### (S) Lease:

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased term, are classified as operating leases. Operating lease payments are recognized as an expense in the Statement of Profit and Loss on a straight-line basis over the lease term which reflect the time pattern of such payment appropriately.

#### Note 30.03

In respect of Okara Mills, Pakistan, ( Which remained with the Company as a result of transfer of textiles division of Sutlej Industries Limited with the Company ) no returns have been received after 31.03.1965. Against net assets of Okara Mills, Pakistan amounting to ₹232.35 lakhs, the demerged/transferor Company had received adhoc compensation of ₹25 lakhs from Government of India in the year 1972-73. These assets now vest in the Custodian of Enemy Property, Pakistan for which claim has been filed with the Custodian of Enemy Property in India. The Company shall continue to pursue its claim for compensation/ restoration of assets. Hence, further compensation, if any received, credit for the same will be taken in the year of receipt. In the year 2003-04, net assets of ₹207.35 lakhs (net of compensation received) as on 31.03.1965, valued at pre-devaluation exchange rate, has been provided for.

#### Note 30.04
